Audit trail access options

AL-DTMII Data Transfer Module: Module used to transfer program data from the PC to the keypad and receive Audit Trail from the keypad. Can send program data for up to 96 keypads.

DL-WINDOWS SOFTWARE: Version 2.94 or higher Windows-format software used to program manager and users codes, schedules, receive Audit Trail from keypad using PC or laptop. Configure AL-DTMII to transfer data from one or more Trilogys (requires ALPCI2). DL-WINDOWS is packed with AL-PCI2.

For Prox Models, AL-PRE: Prox Card Reader/Enroller Enables instant, automatic enrollment of Prox Cards into DL-Windows (just tap the prox Card/fob device to the unit's faceplate to enroll)! Supports all Prox Cards and Prox Keyfobs. Simultaneous card enrollment, downloading or polling – all on just one serial port. (Replaces AL-PCI2) 9V Battery operation.

AL-IR1 Infrared Printer:
Prints the event log and user code with hand-held convenience.
