

## Electrified Entry Trim

### 3080E Series

For 3000/8000 Series Exit Devices

### 3080 Series Electrified Entry Trim

The 3080E Series provides outside activation of doors that have any type of Adams Rite Exit Device. Breakaway clutching mechanism protects the locked handle from vandalism or forced entry, in either direction. All models share the same core components, so handles can be changed without

having to replace the entire trim. Solid construction meets Grade 1 standards. A continuous duty solenoid mounted to the trim enables remote activation of the locking function without unlatching the door, making this trim ideal for stairwell and fire doors.

## INSTALLATION

### Door Preparation and Trim Installation

Door prep and installation will differ depending on type of exit device being used. Refer to Adams Rite Templates for 3080 Series Entry Trim preparation details.

## OPTIONS

Can be ordered with or without a hole for cylinder. Order standard mortise cylinder with MS cam separately. Order 4603 Rectifier, 4605/4606 Transformer or PS-1 Power Supply separately.

## CYLINDERS

### Rim Cylinder

Standard five-pin unit with spindle to suit Surface Vertical Rod exit devices. All brass with same choices of keying as Mortise cylinder. Available in finishes 628, 313 or 335. Any other make standard Rim cylinder can be used to key in with existing systems. Note that if entry trim is specified for cylinder use, the cylinder must be Mortise type, regardless of exit device.

### Mortise Cylinder

Standard diameter five-pin unit with MS<sup>®</sup> cam, suitable for use with Entry Trim. All brass construction with front "scalp" available in finishes 628, 313 and 335. Available in quantity all keyed different (KD), in pairs (KA2) or fifty alike (KA50). Any other make standard Mortise cylinder with MS cam can be used to "key in" with existing systems.

### Cylinder Cam

3080E Series Entry Trim accept any standard 1-5/32" diameter mortise cylinder with special MS<sup>®</sup> cam dimensioned as shown. Cylinders with MS<sup>®</sup> cams can be readily obtained from most cylinder manufacturers. See page SW-33 for cylinder make and trim ring information.
