

DORMA 9000

DORMA's 9000 Series heavy-duty exit devices provide superior durability for high impact applications such as schools, universities, and other institutional or commercial buildings.

The heavy-duty cast chassis provides superior durability, while the smooth reduced projection touchbar assembly minimizes catch hazards. The partial length touchpad permits field installation of options such as cylinder dogging and exit alarm. A full complement of free wheeling lever trim is available in a wide range of architectural finishes.

Certification:

The DORMA 9000 Series is listed by U.L. and C.U.L. under their continuing reinspection programs and conforms to standards U.L. 10C and U.B.C. 7-2 (1997) positive pressure testing. The DORMA 9000 Series is BHMA-certified to the requirements of ANSI A156.3 for Grade 1 exit devices.

Miami-Dade County Florida acceptance No. 06-912.05.
Expires 01/03/2012.

Specification:

All exit devices shall be DORMA 9000 Series rim, mortise, surface, or concealed vertical rod devices. All devices to have heavy-duty cast chassis. All device touchbar, rail, and cover assemblies shall be constructed of heavy gauge solid wrought materials for true architectural finishes or color coated finishes where applicable. The partial-length touchpad assembly shall permit field installation of options such as cylinder dogging and exit alarm. Non-labeled units to have hex-key dogging standard. Fire rated versions shall be available for labeled applications. All surface vertical rod devices shall have pullman type top latch bolts and round slidebolt bottom latches. All devices to have deadlocking latch bolts with 3/4" throw where applicable. All units shall offer a full range of free wheeling operational trim, except mortise devices. All units shall offer optional rigid and clutch-style trim, where applicable. All devices to be furnished with appropriate mounting hardware including both wood and machine screws, as well as sex nuts where required.

Optional Specifications:

Non-labeled devices to have cylinder dogging. Mortise cylinder included. Specify **CD**.

All surface/concealed vertical rod devices to have pullman type bottom latch bolt. Specify **PB**.

All surface/concealed vertical rod devices to have extended top rod up to 10'. Specify **ETR**.

All surface/concealed vertical rod devices to be furnished less bottom rod. Specify **LB**.

Devices to have electric latch bolt retraction to provide remote access from the secure side of door. Can also be used in conjunction with low energy/automatic door operator. Specify **ES**. (**ES must be powered by PS-501 power supply and use ES-105 power transfer**).

Devices to have a latch monitor to report the latch bolt status. Specify **LM**.

Devices to be furnished with two switches in the touchbar to provide notification when touchbar is depressed. Specify **MS**.

Devices to have latch monitor with monitor switches in touchbar. Specify **LM/MS**.

Devices to have latch monitor with monitor switches and a bypass to permit authorized exit. Specify **LM/MS BP**.

Devices to have one of the following exit alarm options: battery-powered exit alarm (**BPA**), battery-powered exit alarm with a 4-minute reset (**BPAR**), or direct hard-wired exit alarm (**DWA**).

Devices to use a glass lite shim kit to raise the device from the door surface to accommodate glass light molding. Specify **GK9000**.

All devices for labeled wood or composite doors to be furnished with sex bolts. Specify **SNB**.

All concealed vertical rod exit devices installed in wood doors to be furnished with appropriate brackets, fasteners, and templates for wood door applications. Specify **WD** (9100 only).

All concealed vertical rod devices installed in aluminum doors to be furnished with appropriate brackets for aluminum door applications. Specify **ALD** (9100 only).

All devices to use tamper-resistant security screws. Specify **TX**.

All devices to be furnished with rigid trim. Specify **R** after trim number.

All devices to be furnished with clutch-style lever trim. Specify **C** after lever trim number.

Finishes

Architectural Finishes:

Brass: 605 (Bright) or 606 (Satin).
Bronze: 611 (Bright), 612 (Satin), or
613 (Oxidized Satin Oil Rubbed).
Chrome: 625 (Bright) or 626 (Satin).
Stainless Steel: 630 (Satin).

Powder Coated Finishes:

Aluminum: 689.
Bronze: 691 (Dull) or
695 (Dark Duranodic).
Gold: 696.

Warranty:

10 Years - Mechanical.

2 Years - Electronic integral components and accessories.

The quality management system at the Steepleville, IL facility is certified to ISO-9001:2000.*

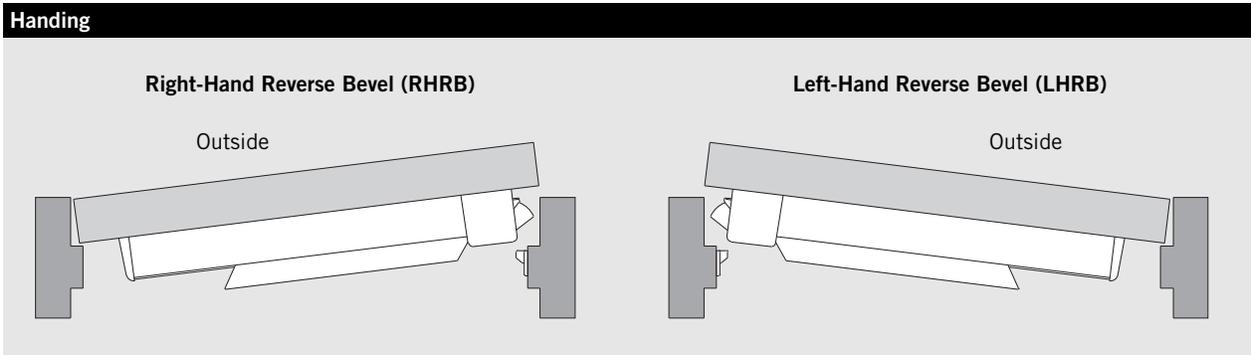

*DORMA Door Controls Inc., dba: DORMA Architectural Hardware

General Information

- Partial width touchbar and rail, chassis, and latch bolt covers are fabricated from brass, bronze, aluminum, steel, or stainless steel.
- End cap for touchbar assembly furnished in complementary finish.
- Some models handed depending on outside operating trim and function.
- Most devices easily field-reversible.
- Fasteners provided for metal and wood door applications.
- Free wheeling, vandal-resistant trim standard.

How to Order

To order, list options, model number, trim, strikes, hand, and finish.

- Options:** (R) Rigid Trim
 (C) Clutch Style Lever Trim
 (BPA) Battery Powered Exit Alarm
 (BPAR) Battery Powered Exit Alarm, (4) minute reset
 (DWA) Direct Wired Exit Alarm

- (CD) Cylinder Dogging
 (ES) Latch Retraction (9100, 9300, 9400)
 (ETR) Top Rod Extension (9100,9400)
 (GK9000) Glass Lite Shim Kit
 (LB) Less Bottom Rod (9100, 9400)
 (LM) Latch Monitor
 (MD) Magnetic Dogging
 (MS) Monitor Switch
 (LM/MS) Latch Monitor/Monitor Switch
 (LM/MS BP) Latch Monitor/Monitor Switch with Bypass
 (DE) Delayed Egress – 15 sec (9100, 9300, 9500)
 (PB) Pullman Bottom Latch – vertical rod only
 (SNB) Sex Nuts – specify quantity
 (WD) Wood Door Package (9100 only)
 (ALD) Aluminum Door Brackets (9100)
 (TX) Security Screws
 (HC) Hurricane Code Rated (9300, 9400, and 9500)

Rim x Rim F9300 x F9300 	Steel	8' x 8'	3 Hour		
	Wood	8' x 8'	1-1/2 Hour		

Pair of Doors

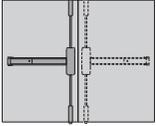

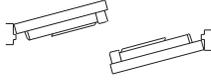

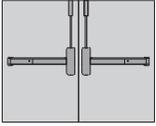

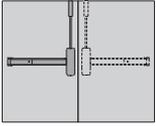

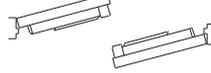

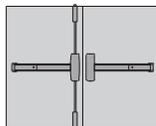

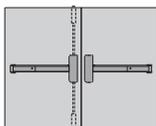

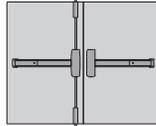

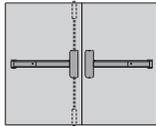

Concealed Vertical Rod 9100 x 9100	Wood/Steel	8' x 10'	Devices are panic listed only	(2) independent doors with (2) point latching 	
Concealed Vertical Rod F9100 x F9100 	Steel	8' x 10'	1-1/2 Hour ²		
	Wood	8' x 8'	1-1/2 Hour		
	Wood	8' x 10'	1-1/2 Hour		
Concealed Vertical Rod 9100 x 9100	Wood/Steel	8' x 10'	Devices are panic listed only	(2) independent doors with (2) point latching 	
Concealed Vertical Rod F9100 x F9100 	Steel	8' x 10'	3 Hour		
	Wood	8' x 8'	1-1/2 Hour		
	Wood	8' x 10'	1-1/2 Hour		
Concealed Vertical Rod (Less Bottom Rod) 9100 LB x 9100 LB	Wood/Steel	8' x 10'	Devices are panic listed only	(2) independent doors with (1) point latching 	
Concealed Vertical Rod (Less Bottom Rod) F9100 LB x F9100 LB 	Steel	8' x 10'	1-1/2 Hour ^{1,2}		
	Wood	8' x 10'	1-1/2 Hour ¹		
Concealed Vertical Rod (Less Bottom Rod) 9100 LB x 9100 LB	Wood/Steel	8' x 10'	Devices are panic listed only	(2) independent doors with (1) point latching 	
Concealed Vertical Rod (Less Bottom Rod) F9100 LB x F9100 LB 	Steel	8' x 10'	3 Hour ¹		
	Wood	8' x 10'	1-1/2 Hour ¹		
Surface Vertical Rod 9400 x 9400	Wood/Steel	8' x 10'	Devices are panic listed only	(2) independent doors with (2) point latching 	
Surface Vertical Rod F9400 x F9400 	Steel	8' x 10'	1-1/2 Hour ²		
	Wood	8' x 8'	1-1/2 Hour		
	Wood	8' x 10'	1-1/2 Hour		

Notes:1. Fire rated pairs using **Less Bottom Rod** devices require the supplied door popper. With the absence of bottom rods, the popper holds the bottoms of the doors together in the event of fire.

2. Pairs of doors swinging in the same direction cannot use two vertical rod exit devices with an overlapping astragal as pairs of doors rated greater than 1-1/2 hours require a steel overlapping astragal. Currently, no door manufacturers offer over 90 minutes with doors swinging in the same direction.

9100/F9100 Concealed Vertical Rod Exit Devices

The 9100 Concealed Vertical Rod and the F9100 Series Concealed Vertical Rod Fire Exit Devices are excellent choices where barrier-free codes, aesthetics, or the potential for vandalism require concealment of the vertical rod. They are panic and fire-listed (three-hour steel fire door applications) and feature a simplified adjustment mechanism that provides ease of installation and reduced service requirements.

9300/F9300 Rim Exit Devices

The 9300 and F9300 present a simple, heavy-duty, easily installed solution where high quality panic and fire-listed hardware is needed. The patented exit devices in the 9300 and F9300 Series are available in a full range of finishes and trim options. The F9300 Series devices carry an "A" label for three-hour steel fire door applications.

9400/F9400 Surface Vertical Rod Exit Devices

The 9400 and F9400 provide heavy-duty, secure, two-point latching at the top and bottom of the opening. Both the 9400 and F9400 Series feature a patented latch design for reliable, secure operation. The F9400 devices are U.L.-listed for three-hour steel fire door applications.

9500/F9500 Mortise Lock Exit Devices

The 9500 and F9500 include a heavy-duty, high quality deadlocking mortise lock that provides a high level of security and exceptional durability. The F9500 Series devices are U.L.-listed for three-hour steel fire door applications.

Model Number	Function	Operation	Trim Model Numbers
9500 F9500	01 ¹	Exit Only (no trim)	
9500 F9500	DT ¹	Dummy Trim	VODT  NPTDT  YODT 
9500	02 ¹	Entrance by trim when actuating bar is locked.	V102M  V302M  PTT02M  PRT02M 
9500 F9500	03 ²	Entrance by trim when latch bolt is retracted by key. Key removable only when locked.	VO03M  V103M  V303M  NPT03M  PTT03M  PRT03M  YO03M 
CD9500	04 ²	Entrance by trim when latch bolt is retracted by key or set in a retracted position by key.	VO03M  V103M  V303M  NPT03M  PTT03M  PRT03M  YO03M 
9500 F9500	05 ³	Entrance by thumbpiece. Key locks or unlocks thumbpiece.	HTT05M  HRT05M  (specify hand)
9500 F9500	08 ¹	Entrance by knob or lever. Key locks or unlocks knob or lever.	YK08M 
9500	22 ³	Entrance by thumbpiece and pull.	HTT22M  HRT22M  (specify hand)
9500 F9500	23 ¹	Entrance by knob or lever (no cylinder). Knob or lever always active.	

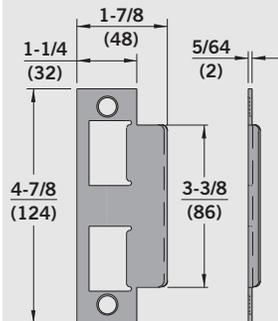

Note: When ordering a 9500 device without trim, specify the device function so the correct mortise lock can be supplied.

1. Uses 08 function lock case
2. Uses 03 function lock case
3. Uses 05 function lock case

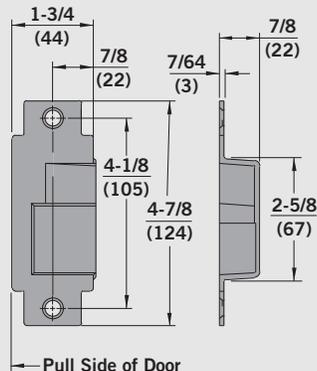

Standard Strike

No. 465 - Standard strike with 9500/F9500

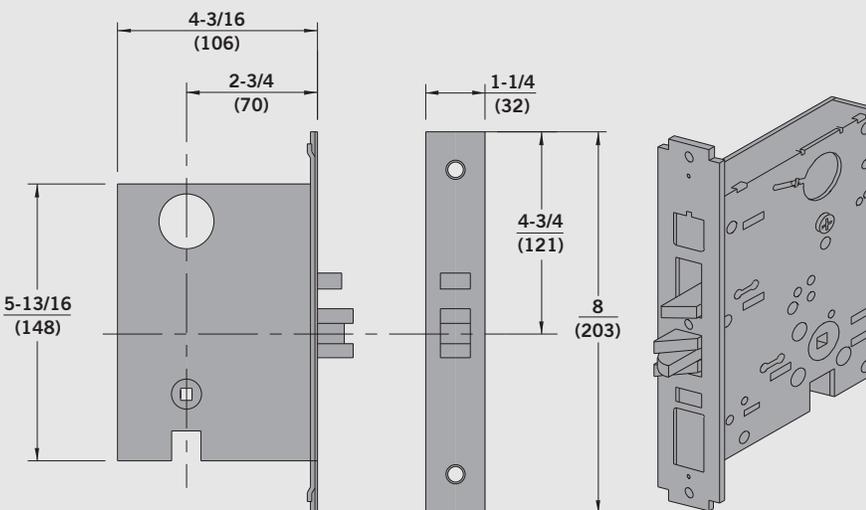

Optional Strike

No. 565 - Open back strike. Hand of strike is the same as the device. Specify hand (RHR shown).

Key-in-Knob and Key-in-Lever trim are reversible in the field.

Note: All operating trim furnished free wheeling as standard, except mortise devices.

Trim Options

Clutch Lever Trim –

Although mandated to meet ADA requirements, lever handles are especially subject to vandalism and damage. The **clutch** option for lever trim includes an internal slip clutch mechanism which allows the lever handle to break away without damage or violating security when excessive force is applied. The lever can be lifted back to horizontal to reset it.

An internal dead stop limits the break away to 55° of lever handle rotation. Specify suffix **C** to trim designation. Available only on YC, YG, YR, or YT trim. Specify hand.

Rigid Trim –

Rigid lever and knob option is available on YC, YG, YK, YR, and YT trim. Specify suffix **R** to trim designation.

Electrified Trim –

Electrified **Y** style trim with integral locking/unlocking option. Trim can be used with models 9100/F9100, 9300/F9300 and 9400/F9400. Available as fail-secure or fail-safe. Specify suffix **LFSC** (fail-secure) or **LFSF** (fail-safe) following trim designation. Available for the 09 function only. An integral microswitch is available as an option to monitor the status of the trim. **Electrified trim options must use an ES100 power supply to prevent permanent damage to the electronics. Two devices can be powered by an ES100 device.**

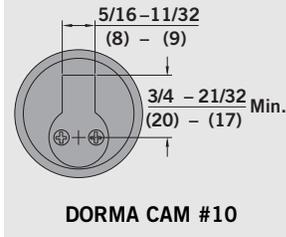

Electrified option also available with the 9500/F9500 mortise device which utilizes an electrified mortise lock design. Specify suffix following exit device designation, i.e. 9500LFSF. Available for all styles of trim with an 08 function. This option is not field-interchangeable between fail-secure and fail-safe. **Electrified mortise locks must use a PS531RF power supply to prevent permanent damage to the electronics. Two devices can be powered by a PS531RF device,**

Mortise and Rim Cylinder Specifications

NOTES:

1. Reference specific trim on pages 22–31 for DORMA rim and mortise cylinder requirements.
2. Cylinder illustrations are for mortise cylinder requirements.

Mortise Cylinder

Key-in-Lever/Knob Cylinder Specifications

Trim K03, K08, R03, R08, C03, C08, G03, and G08 use a key-in-lever/knob cylinder.

DORMA 7013SC KD key-in-lever/knob cylinder included standard with trim.

Interchangeable Core Cylinder Specifications

Trim K03IC, K08IC, R03IC, R08IC, C03IC, C08IC, G03IC, and G08IC accepts a small format interchangeable core cylinder.

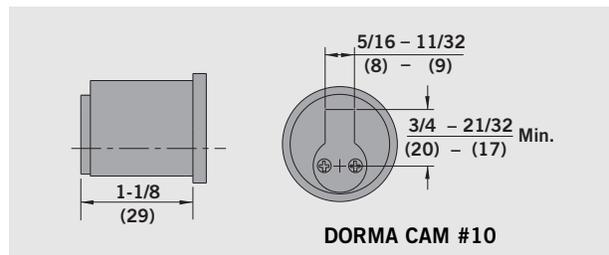

Order DORMA cylinder:

- 76BA – 6-pin IC
- 77BA – 7-pin IC

Cylinder Dogging, Exit Alarm, and Delayed Egress Cylinder Specifications

Use DORMA cylinder 90X10SC118.

Optional Electric Functions

Electric Latch bolt Retraction – Specify suffix **ES**. A solenoid concealed in the touchbar assembly provides instantaneous retraction of the latch bolt to allow access from the secure side of the door. Remote control can be accomplished with switching devices such as key switches and card readers that provide a normally open electrical contact. The solenoid is rated for continuous duty, 24 VDC, 14-18 AMP inrush for 200 milliseconds, 1 AMP holding current. **Requires PS501 power supply and ES105 power transfer.** Not available with **C** size device or 9500 mortise exit devices.

Monitor Switch – Specify suffix **MS**. Two micro switches in the touchbar assembly functioning as form C contacts provide local and/or remote notification of two separate appliances when the touchbar is depressed. Each switch is rated for .5 AMP @ 28 VDC maximum.

Latch Monitor – Specify suffix **LM**. A microswitch attached to the device chassis provides local and/or remote notification of the exit device rods and without depressing the touchbar. The single-pole, double-throw switch is rated at .50 AMP @ 28 VDC maximum.

Latch Monitor with Monitor Switch – Specify suffix **LM/MS**. A combination of Latch Monitor and Monitor Switch functions in one device.

Latch Monitor with Monitor Switch and Bypass – Specify suffix **LM/MS BP**. Same as LM/MS above, but an additional single-pole, double-throw switch is triggered by a mortise cylinder for alarm bypass. Cylinder furnished.

PS501 Power Supply

The PS501 Power Supply is capable of powering and controlling (2) 9000 Series Exit Devices with the ES Electric Latch Bolt Retraction feature. Also has the capability of powering (2) additional 9000 Series Exit Devices with an optional card. Specify option **ES2 CARD**.

NOTE: The PS501 Power Supply must be used along with the ES105 power transfer to power the ES Electric Latch Bolt Retraction feature.

- Input: 120 volts
- Input circuit protection: 1 AMP circuit breaker
- Output: 24 VDC, 14-18 AMP surge, 2 AMP @ 5 volt continuous, per zone
- Output circuit protection: 4 AMP fuse
- Enclosure: 8" high x 8" wide x 4" deep
NEMA 1 Type enclosure for indoor use with hinged cover and knock-outs

Battery Alarm Exit Device

The DORMA 9000 Series exit devices are available with an integral battery powered alarm. The 102 decibel alarm contained in the panic device touchbar and rail assembly activates when the touchbar is depressed and sounds continuously until the device is reset or the battery is completely discharged. Alternatively, a factory-furnished option allows the alarm to sound for four (4) minutes, then automatically rearm.

Furnished with and controlled by a lock cylinder and key, the unit allows ten (10) seconds to exit through the door after arming the alarm, indicated by an intermittently flashing red L.E.D. light in the touchbar. A yellow L.E.D. in the touchbar will flash until manually reset by key to indicate an unauthorized exit even if the alarm has automatically reset.

The unit is furnished with a 9 volt, industrial-grade battery concealed in the end cap assembly for easy replacement. A tamperproof switch will activate the alarm if unauthorized removal of the battery is attempted. Option is available for 12 or 24 volt direct power wiring.

- Specify prefix **BPA** to 9000 Series model number for battery alarm device.
- Specify prefix **BPAP** for 4 minute auto reset battery alarm device.
- Specify prefix **DWA** for direct hard-wired option.
- Size **A** device fits 48" wide door and can be cut to fit 39" wide doors.
- Size **B** device fits 36" wide door and can be cut to fit 33" wide doors.
- Size **C** device fits 30" wide door.

Removable mullions are used with paired doors where a full-width opening is only occasionally required. Doors are fitted with rim exit devices and normally function as single doors. Available in 8' or 10' lengths.

1310 Aluminum Mullion

- Meets demands of heaviest use areas.
- Durable extrusion.
- Supplied with wood/machine screws and anchors.

1310 - 8 - 8' mullion
1310 - 10 - 10' mullion

WS1310 - 8 - 8' mullion with weatherstrip
WS1310 - 10 - 10' mullion with weatherstrip

Finish:
 Aluminum: 628 (Satin).
 Bronze: 695 (Dark).

1330 Steel Mullion

- Ideal for high-abuse areas such as schools.
- Meets demands of heaviest use areas.
- Heavy-gauge, smooth-surface steel construction.
- Attractive tube shape with rounded corners.
- Supplied with wood/machine screws and anchors.

1330 - 8 - 8' mullion
1330 - 10 - 10' mullion

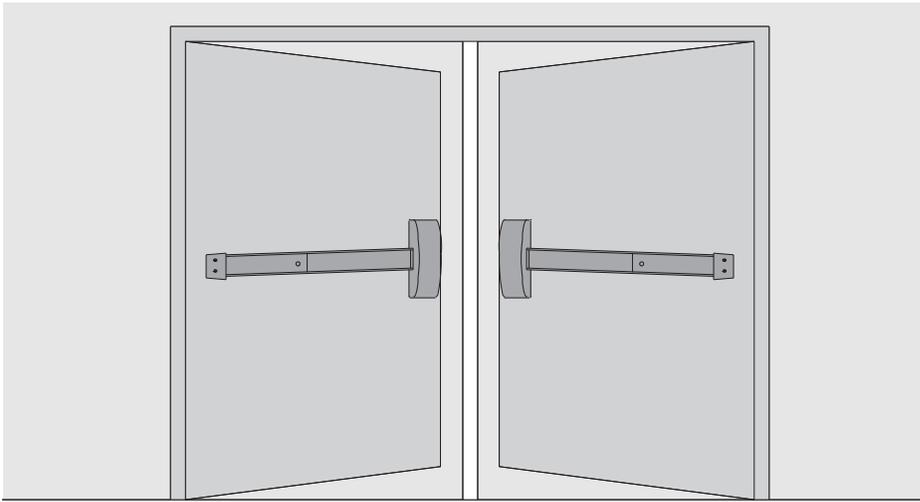

Finish:
 Prime: 600.

F1300 Steel Mullion

- For use with U.L. listed fire exit devices.
- Meets demands of heaviest use areas.
- Large top and bottom fittings for extra strength.
- Heavy-duty tube with rounded corners.
- Standard 8' length.
- Supplied with wood/machine screws and anchors.

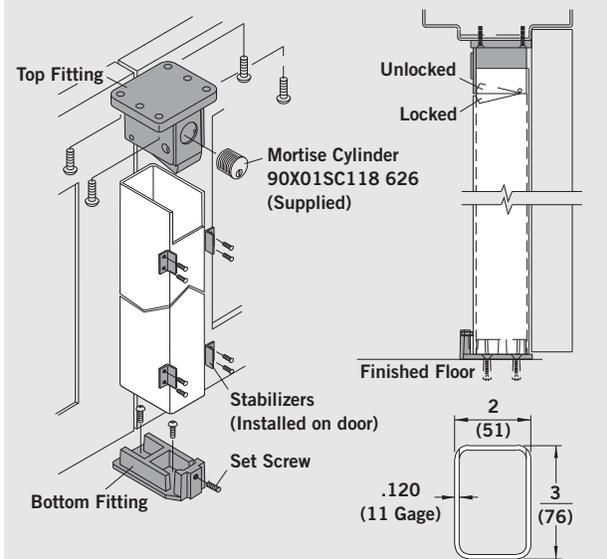

F1300 - 8 - 8' fire-rated mullion
1300 - 8 - 8' non-fire-rated mullion
1300 - 10 - 10' non-fire-rated mullion

Finish:
 Prime: 600.

Note: When using a mullion, refer to exit device template for minimum stile and vertical reference dimensions.

F1340KR Key Removable Steel Mullion

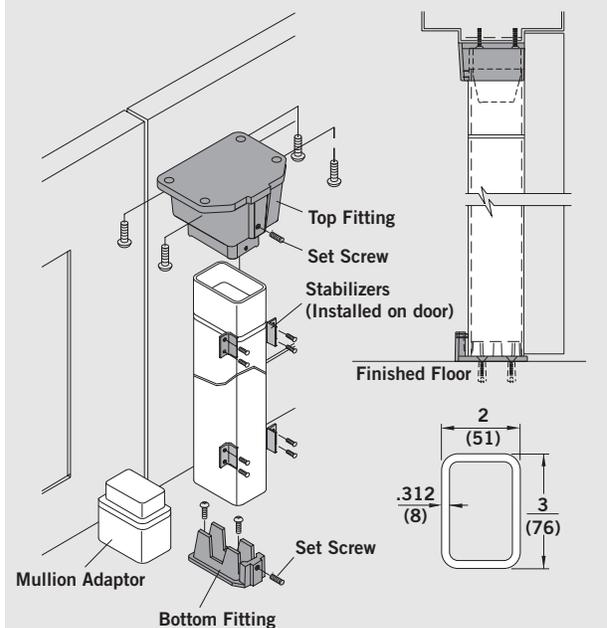

- Easily removable with key.
- Keying is standard 1-1/8" mortise cylinder with 01 (AR) cam.
- For use with U.L. listed fire exit devices.
- Meets demands of heaviest use areas.
- Large top and bottom fittings for extra strength.
- Heavy-duty tube with rounded corners.
- Standard 8' length.
- Supplied with wood/machine screws and anchors.

F1340KR - 8 - 8' fire-rated key removable mullion
1340KR - 8 - 8' non-fire-rated key removable mullion
1340KR - 10 - 10' non-fire-rated key removable mullion

Finish:
 Prime: 600.

Optional DORMA SFIC:
 96D01BA138 – 6-pin IC
 97D01BA138 – 7-pin IC

HC1300 Steel HC Mullion

- For use with pairs of hurricane-rated rim devices on openings up to 8'0" x 8'0".
- 80 psf design pressure rating positive/negative deflection with HC9300 rim device.
- Tested to Miami-Dade TAS 201, 202, 203.
- Large top and bottom fittings for extra strength.
- Heavy-duty tube with rounded corners.
- Standard 8' length.
- Supplied with appropriate screws and anchors.

HC1300 - 8 - Heavy-duty 5/16" wall HC mullion*

Finish:
 Prime: 600.

*For other HC mullions, consult factory

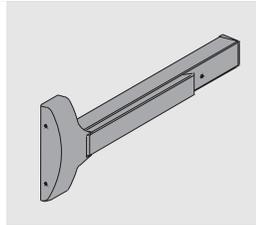

Sex Nuts

The information below serves as a simple reference when specifying DORMA 9000 Series exit devices and trim.

9100/F9100	3 packs
9100/F9100 w/trim	1 pack
9300	3 packs
F9300	4 packs
9300/F9300 w/trim	1 pack
9400/F9400	6 packs
9400/F9400 w/trim	4 packs
9500/F9500	3 packs
9500/F9500 w/trim	1 pack

Non-functioning Exit Devices

The non-functioning exit device looks exactly like the 9000 Series, but has no latching mechanism. Units can be furnished in standard **A** or **B** width or cut to special size when door width is specified. Order any applicable trim for push/pull function. Choose the type of operation required.

9035 Rigid Touchbar Device –

Touchpad is permanently fixed and immobile.

9036 Moveable Touchbar Device –

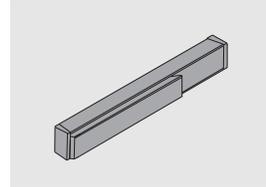

Same as 9035 rigid touchbar device, but touchbar is moveable. Similar to standard 9000 Series device.

9036MS Moveable Touchbar Device with Microswitch –

Same as 9036, but includes microswitch that can be used to control electromagnetic locks, electric strikes, or other electronic appliances.

Dummy Bar

The dummy bar is designed as a companion to 9000 Series devices. Units consist of the touchbar assembly only and do not include the device chassis or chassis cover. Door width must be specified.

9030 Rigid Dummy Bar –

Touchbar only. Touchpad is permanently fixed and immobile.

9030MS Dummy Bar with Microswitch –

Touchbar is moveable and activates included microswitch. Can be used to control electromagnetic locks, electric strikes, or other electronic appliances.

GK9000 Glass Lite Shim Kit

GK9000 Glass Lite Shim Kit –

Contains two 1/8" thick shims. Permits shimming of the exit device maximum 1/4" off door face without affecting U.L. listing. Designed to accommodate glass lite installed in door. Furnished bright zinc plated. Optional finishes available, consult factory.

Conversion Kits

The following conversion kits are the same as options detailed elsewhere in this brochure, but in kit form with required components and installation instructions for field installation/retrofit.

MS Kit – Monitor Switch in Touchbar Kit

BPA Kit – Battery Powered Exit Alarm Kit

BPAR Kit – Battery Powered Exit Alarm, 4 Minute Reset Kit

DWA Kit – Direct Wired Alarm Kit

CD Kit – Cylinder Dogging Kit (less cylinder)

Security Screws

For applications where tamper-resistant security screws are required, specify **TX**. **Note:** Special screw bits are required.
