Part	Template
5022	17100

Quick and Easy retro-fit installation on any door and most Manufacturers' Unit-Locks.

The 5022 adapter installs in minutes in place of an old Unit-Lock. A replacement cylindrical lock installs into the adapter. The 5022 adapter is non-handed, and is manufactured in Stainless Steel.

The door cutout may need to be slightly enlarged, in height and depth to fit the adapter

- 1. Remove the old Unilock.
- 2. Replace with the 5022 adapter.
- 3. Install the cylindrical lock.

Will fit all American made locks. Is available in the 629 and 630 finish only. Patent Pending
