

5400LN Series

Grade 1 Cylindrical Lever Locks

rugged yet refined

Designed for industrial, commercial and institutional use, the Yale® 5400LN Series heavy-duty cylindrical lockset offers no compromise when it comes to rugged reliability and performance. With key construction features such as our patented Free Wheeling lever mechanism, wear-resistant chassis plates, heavy-duty lever return springs and through-bolting, this Grade 1 trendsetter proves time and again why it's the favorite among architects and building owners who demand the highest standard of product quality.

And who says a lockset can't be tough and look good at the same time? The 5400LN features three aesthetic lever designs and a diverse line of eleven architectural finishes, including three PVD lifetime finishes, which allow the freedom of enhancing any décor. With a lifetime warranty against lever sag and lever spring breakage, you'll never have to worry about your intended attraction becoming an unintended distraction.

A.D.A.

The 5400LN meets accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility Standards and ANSI 117.1, all requiring ease of accessibility for the handicapped.

free wheeling lever trim

All 5400LN locking functions

feature the patented (Patent No. 4,920,773) Free Wheeling lever mechanism. When the outside lever is locked, it will rotate freely up and down while remaining securely locked.

installation

5400LN Series Cylindrical Locks conform to ANSI/BHMA Specifications A156.115 which cover hardware preparations for steel doors and steel frames and A156.115-W which cover hardware preparations for wood doors with wood or steel frames.

iso 9001

Designed and manufactured under a certified ISO 9001 quality system.

windstorm

Certified (refer to local codes). 5400LN Series can be provided to meet FEMA 320 standards.

Hurricane

Tornado

See page 17 for How to Order .

knurled designs

Where required by the local authority, 5400LN trim can be knurled to be identifiable to the touch for blind persons. All lever designs in all finishes except 605e, 606e, 612 and 613e may be ordered knurled. Only the outside lever will be knurled unless specified otherwise.

pvd lifetime finish

Physical Vapor Deposition (PVD) is a technologically advanced finish coating that provides the ultimate surface protection against environmental elements and everyday wear and tear. PVD matches clear coated finishes in appearance, yet surpasses them in durability. Yale warrants all its PVD finishes against tarnish, wear, discoloring and peeling for the lifetime of the part to which it has been applied.

warranty

The 5400LN Series cylindrical lever lock carries a seven-year warranty. Likewise, the 5400LN carries a lifetime warranty against lever sag and lever spring breakage.

microshield®

5400LN Series Locks are available with *MicroShield* antimicrobial coating. *MicroShield* is a revolutionary new hardware finish coating which permanently suppresses the growth of bacteria, algae, fungus, mold and mildew. *MicroShield* is non-toxic and lasts for the lifetime of the finish to which it is applied. To order, suffix option code "YMS". Note: *MicroShield* coating may vary finish color from architectural standards. Available for 626 finish, additional finishes by special application. Contact factory for availability.

***PVD finish standard for 605 and 606. Available as an option for 613 (as 613e) for customers desiring a non-wearing finish.**

features

door thickness

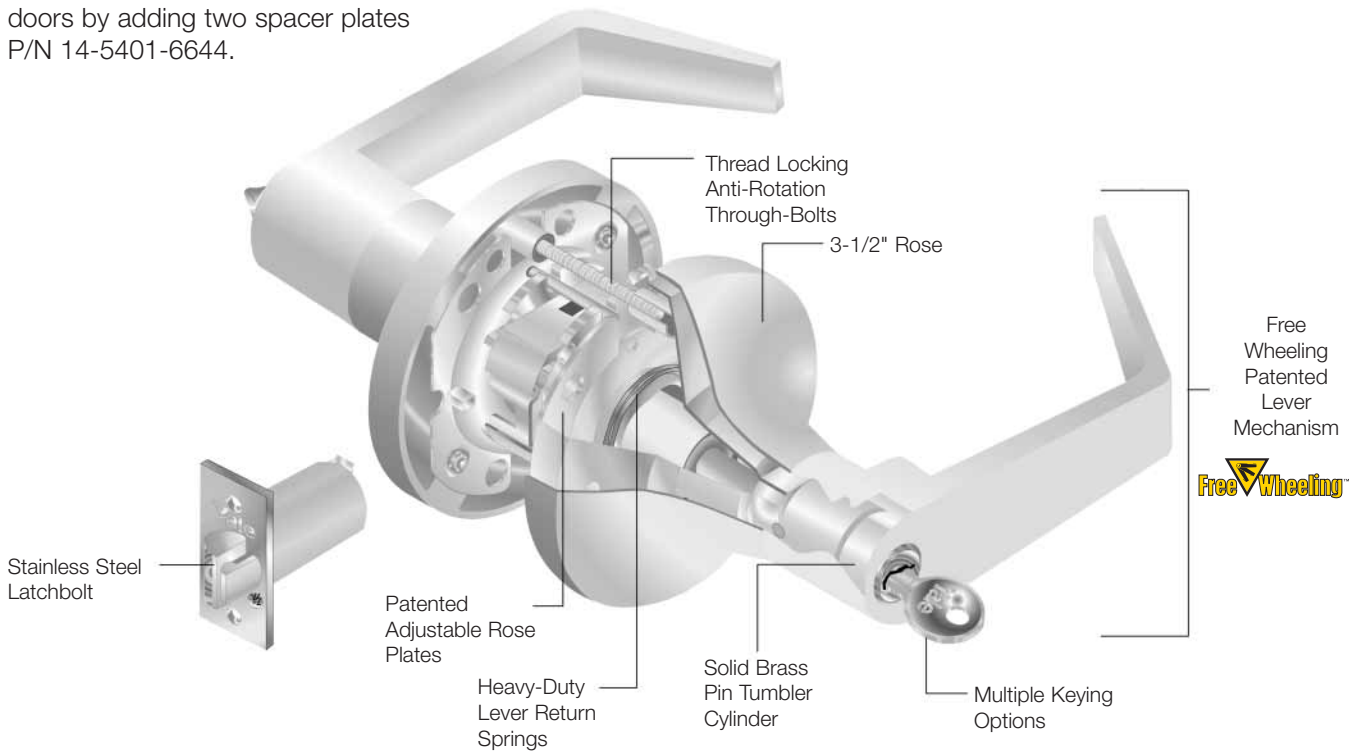

Patented (patent no. 6,131,970) door adjustable rose support plates allow the 5400LN to easily adjust to doors from 1-3/4" to 2-1/4" thick. It can also be used on 1-3/8" thick doors by adding two spacer plates P/N 14-5401-6644.

fire listings

UL - cUL Fire Label for all door functions up to 3 hours.

ANSI/BHMA

Certified ANSI/BHMA A156.2, Series 4000 Grade 1.

full-featured grade 1 lever lockset offering

- Patented Free Wheeling lever mechanism increases vandal resistance and reduces the amount of maintenance typically required of locksets with rigid levers.
- 12 finish options.
- 3 lever designs.
- 24 functions including electrified.
- Stainless steel latchbolt provides added strength and wear resistance. Direct 1/2" throw is standard.
- A 3/4" latch throw for fire-rated or pairs of doors is available.
- Wear-resistant plates in the chassis help extend the life of the lockbody and provide smoother lock operation.
- Longer thread locking through-bolts through the chassis provide greater stability and prevent rotation.
- Lifetime warranted heavy-duty lever return springs prevent lever sag and provide positive return of lever to horizontal position.
- Patented (patent no. 6,131,970) door adjustable rose support plates allow for easy adjustment of lockset to fit doors ranging in thickness from 1-3/4" to 2-1/4". Rose spacers available for 1-3/8" thick doors.
- Three non-handed lever options (Augusta, Monroe, and Pacific Beach) comply with ADA requirements for easy gripping and operation.
- Expanded cylinder and keying options:
 - Yale® 6- and 7-pin standard and interchangeable core cylinders including Yale® KeyMark® patented keyway cylinders (see page 13).
 - Standard cylinders with Schlage® C and Sargent® LA keyways. Small format interchangeable cores with Best® keyways.
 - Levers which accept interchangeable core cylinders by Best®, Schlage®, ASSA® and Medeco®.
- 3-1/2" roses cover ANSI/BHMA hollow metal door cutout.

* Lever handles are Free-Wheeling in locked position. Shaded area denotes FreeWheeling lever.

securex®

operation

Electric locks provide the ability to electrically lock or unlock the outside trim from a remote location. Fail Safe locks are commonly used in stair towers to release upon fire alarm activation. Fail Secure locks are used on perimeter doors or security doors to allow ingress using access control technologies (proximity cards, keypads, etc.)

features

- Patented Free Wheeling lever mechanism.
- Self-contained, continuous-duty integral solenoid (allows installation in standard cylindrical prep).
- Available Fail Safe or Fail Secure.
- Available in 12 or 24 volts AC/DC.
- Mechanical cylinder override.
- All 5400LN cylinder options.
- ANSI/BHMA Grade 1.
- UL listed.

REX

Request to Exit - Operating inside lever handle triggers REX switch which can be used to shunt an alarm, monitor egress or release a magnetic lock, etc.

electrical specifications

- Continuous duty solenoid
150 mA @ 24VAC/VDC
300 mA @ 12VAC/VDC
- REX (SPDT) Contact Rating:
3A @ 125 VAC
2A @ 24 VDC

electrolynx®

Yale® electrified 5400LN locks are equipped with *ElectroLynx* connectors. As a standard feature, these connectors link power from the incoming source to electrified locking products, including hinges, locks, exit devices, magnetic holders and strikes.

Note: Electrified door hardware with *ElectroLynx* connectors requires a compatible number of lead wires attached to the door hinge.

functions

Outside	Inside	Function	Function Description

eBoss®

applications

The eBoss electronic keypad lockset is designed to provide the industrial, commercial, residential and hospitality marketplace with a reliable and moderately priced keyless entry with mechanical key override in interior and exterior environments.

trim designs

eBoss cylindrical locksets are available with Augusta (AU), Monroe (MO) and Pacific Beach (PB) lever designs.

features

- Windstorm certified (refer to local codes)
- Battery-operated (hard wire option available)
- 94 user capacity
- Heavy-duty all metal escutcheon for vandal resistance
- Stainless steel pushbuttons
- LED function indicators
- Weather resistant, ADA compliant 12-button keypad
- Patent pending modular design for simple installation
- Audible pushbutton
- Patented (Patent No. 7,091,429) keypad blinders
- Request to enter input
- Master, Emergency, Supervisor, Lockout and Passage Codes
- Two-tier low battery indicator
- 3 year limited warranty

securex® accessories

BPS power supplies by securitron®

Operation

Power supplies are designed to provide reliable filtered and regulated power for long life to a variety of electrified hardware components.

Product Features

- Individual output circuit breakers
- Regulated and filtered fuse protected outputs
- LEDs monitor zone status (voltage or no voltage)
- Slide switches connect or disconnect load from power (Not available on 1 Amp supplies)
- Internal Back-Up battery charging circuit
- Rugged steel enclosure
- Fire alarm interface

Listings

- UL CLASS 2

Applications (use with):

- Fail Safe cylindrical locks
- Fail Secure cylindrical locks

Consult factory for additional power supply applications.

securex® accessories

EPT & EPTL electrical power transfer by securitron®

The electric power transfer is concealed in the door and frame edges, maintaining aesthetics and security. A unique advantage is that the EPT/EPTL accepts interior wire cables up to .25" (6mm) thick and protects the wires with a flexible steel shield. Suitable for applications where a relatively large current is required, and works with doors hung with butt hinges, continuous hinges and pivots.

Note: It will not function on a center pivot door due to the large gap between the door and frame edges when the door is open.

To order, specify:

EPT: Concealed Transfer for up to 120° swing doors

EPTL: Concealed Transfer for over 120° swing doors

EPTL

EPT

TSB-C door cord by securitron®

The door cord is the simplest and most economical solution for power transfer. This unit consists of an 18" (460mm) armored stainless steel cable and plastic end pieces in light gray and black. The cable has an interior diameter of .25" (6mm) and supports interior wire cables up to .2" (5mm) thick.

To order, specify:

TSB-C: 18" Door cord with gray/black caps

heavy-duty push button switches - 5, 6 and 10 amp by securitron®

PB Series Push Buttons

- Mounted on brushed stainless steel plates
- Includes exit prompt
- Momentary or alternate action
- Illuminated options

Model	Description
PB2	Push Button 2" Square Mom. Single Gang Illum - SPDT
PB3	Push Button 3/4" Rectangle Mom. Single Gang Illum - DPST
PB3ER	Push Button Remote Mom. Surface Mount - DPST
PB3EA	Push Button 3/4" Rectangle Alt. Single Gang - DPST

MK series key switches by securitron®

Model	Switch Description
MKA	Alternate Action SPDT
MKA2	Alternate Action DPDT
MK	Momentary SPDT
MK2	Momentary DPDT
MKAN	Alternate Action Narrow Stile SPDT
MKN	Momentary Narrow Stile SPDT

Key Switch Features

- Standard 12/24 VDC bicolor LED (Red/Green)
- 5 AMP rated SPDT plunger switch
- Accepts 1-1/4" or 1-1/8" mortise cylinder (not included)
- UL Listed

Note: Detailed information is available on all of the products listed above through the Securitron® catalog. Key switches require a straight cam, cam #1161. Ordering example: 1152 - 1-1/8 - 1161

ZLP-1 LED monitors by securitron®

Narrow stile Zone Light Panels provide visual status of the lockset. LED's are red and the face plate is made of stainless steel.

To order, specify:
ZLP-1: Narrow stile

typical installation

DK-11 digital entry systems by securitron®

DK-11 (Indoor Use)

Product Features:

- 4 Individual User Codes
- 12 button keypad (10 digits plus "*" and "#")
- Single gang, stainless steel plate with plastic backbox
- 5 Amp SPDT timed, control relay output
- Two LEDs are standard (Red/Green)

Current Draw and Voltage:

- 70mA @ 12 or 24VDC

Wiring diagrams are available for complete turn-key packages involving electrified hardware and components.

Refer to Yale® KeyMark® and/or Cylinders and Keys Catalog sections for all details and how to order examples.

patented keyway cylinders **Yale® KeyMark®**

For those applications requiring patented key control, Yale® KeyMark® line of patented keyway cylinders provides the ultimate protection against unauthorized key duplication. *Yale KeyMark* utility-patented Security Leg® keyway features increased resistance against picking and impressioning and can easily retrofit into existing systems. For further details and how to order, refer to the separate *Yale KeyMark* catalog.

security cylinders

Security Cylinders (Patent No. 4,638,651) contain two independent locking mechanisms. The first is a traditional 6- or 7-pin tumbler mechanism with spool drivers for greatly increased picking resistance.

The second is an innovative 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway.

*Specify finish required.

strikes

Yale® 5400LN locksets are supplied standard with a 497 ANSI strike.

A variety of optional strikes are also available. All strikes are located on the same vertical and horizontal center lines as the latchbolt. Some strikes are available in a variety of lip lengths to accommodate varying thickness of doors and frames. To determine the proper length of the lip, measure from the center line of the strike to the edge of the jamb and add 1/4" (6mm). All strikes are reversible.

<p>Model No. 497 ANSI Strike (Standard) 1-1/4" supplied standard with 5400LN. 1-1/8", 1-1/2", and 1-3/4" lip lengths available by special order. For door and frames with ANSI/BHMA A156.115 preparations.</p>	<p>Model No. 495 Strike (Optional) 1-1/4" curved lip, strike box supplied. 1", 1-1/2", 1-3/4" and 2" curved lip lengths available by special order.</p>	<p>Model No. 497B Blank ANSI Strike (Optional) Available to special order. Installed in frame with standard ANSI/BHMA A156.115 preparation to replace the strike when the lockset has been removed from the door.</p>	<p>Model No. 202 Strike Box for ANSI Strike (Optional) Specify 497 x 202</p>

attaching screws

For Model No. 495

#8-8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screws.
P/N 81-2012-0416

For Model Nos. 497 and 497B

#12-12-24 x 1" Phillips flat head combination wood and machine screws.
P/N 81-2012-0620

NOTE: When ordering strike or attaching screws individually, specify the finish required; i.e. 497 x 202 x 606.

ordering information

From this outline select the Model Number for the Yale® 5400LN Series Cylindrical Lockset you require.

Design	Function	Option	Latch	Strike	Cylinder	Door Thickness	Finish
See Page 4	See Pages 5-7	REX - See page 8 TD - See page 17	See Page 15	See Page 16	See Pages 13-14	See Page 3	See Page 2

ordering example

Quantity	Design	Function	Option	Latch	Strike	Cylinder	Door Thickness	Finish
100	AU	5407LN	TD	F694	497	1802	1-3/4"	626

FEMA 320

The 5400LN can be used in conjunction with a Ceco StormPro® 320 door and frame and Medeco® Maxum Security deadbolts to meet the standards of the FEMA 320 Large Missile Impact test. The 5400LN requires the use of longer through-bolt screws. To order, add option “TD” to the model number and the correct screws will be supplied. For example: AU5407LN x TD.

packing

Each box has a strike, paper template, combination wood and machine screws, lever release tool and easy-to-follow instructions. Cylinder functions supplied with two keys. Ten shelf boxes to a case.

sample specification

All locksets shall be 5400LN Series Grade 1 cylindrical lever locksets as assembled by Yale Commercial Locks and Hardware.

Lockset chassis shall be constructed of heavy-gauge cold-rolled steel, trivalent chrome plated to protect against rust and corrosion. Locksets shall be adjustable to fit doors between 1-3/4" (44mm) to 2-1/4" (57mm) thick.

Locksets shall be non-handed, and shall install easily without the need for specialized installation tools. Locksets shall have separate anti-rotation throughbolts in the 6 o'clock and 12 o'clock position outside the 2-1/8" face bore, and shall have no exposed mounting screws.

Locksets shall have solid one-piece, cast levers without plastic inserts, and shall be a minimum of 5-1/4" in length. Levers shall operate independently, and shall have inside and outside lever return springs. Outside levers on the keyed locksets shall be removable only when the designated key is in the cylinder.

Locksets shall have the capability of accepting 7-pin standard, interchangeable core and high-security cylinders to provide expansion capacity for large master keyed systems.

Vandal resistant levers shall be offered as a standard feature in all locking functions, and shall be Free Wheeling in the locked condition. Locksets that are rigid in the locked condition or which must require resetting (breakaway) are not acceptable.

The latchbolt shall be made of stainless steel.

All locksets shall carry a comprehensive seven-year mechanical warranty. Locksets shall carry a lifetime warranty against lever sag or lever spring breakage.

All locksets shall comply with the following certifications:

- UL 3 Hour Fire Rating
- ANSI/BHMA A156.2 Series 4000, Grade 1
- ANSI A117.1 Accessibility Code
- ANSI/BHMA A156.115 or A156.115-W Preparation
