Ordering Information

- This price list cancels and supersedes all prior listings.
- Orders are accepted with the understanding that they will be billed at prices in effect at time of shipment.
- Prices are subject to change without notice.
- We reserve the right to decline the whole or part of orders in which the price or quantity of goods is not acceptable to us.

Easy Order Placement

By Phone: 1-800-458-2424 Monday through Thursday 8:00 am ET to 7:00 pm ET, Friday 8:00 am ET to 4:30 pm ET

By Fax: Orders may be faxed to 1-800-922-9212

By Email: orderediting@rockwoodmfg.com

By Internet: <http://extranet.assaabloydss.com/> and select Order Entry under the Customer Service Menu

Terms and Conditions of Sale

Terms: 1% 15 days, net 30 days

Minimum Order: \$50 (If less, add \$20 processing fee to order.)

Remit Payment To: Rockwood Manufacturing Company, P.O. Box 644489 Pittsburgh, PA 15264-4489

Freight Policy

Freight Allowance: All prices are F.O.B. Rockwood, Pennsylvania. Full freight will be allowed on shipments of \$1,000 net and over within the continental limits of the United States (excluding Alaska and Hawaii). All shipments are routed cheapest route of our choice. We reserve the right to designate the carrier.

Special Order Material

Special items made to your specifications are not returnable. These items are not subject to cancellation without consideration of expense involved at the cancellation date.

Samples

Salable samples will be charged at regular prices.

Returned Goods

Return no merchandise without written permission from the factory. Authorization will insure your receiving proper credit. Errors in shipping may occasionally occur. If this is the case immediately notify the factory, and we will gladly make the proper adjustments. If the error is at the customer's end, a minimum charge of 25% plus freight will be incurred for handling. Unauthorized claims for labor or charges will not be allowed. No credit will be allowed beyond six months after invoice date.

Shortages

Claims for shortages must be made within 30 days of invoice date.

Templates

Upon request we will furnish templates for any of our standard items of manufacture. Commonly used templates are available on our website at www.rockwoodmfg.com.

Product Weight Information

NOTE: Weights indicated throughout the price list are approximate for brass, bronze or stainless steel base material. Aluminum base materials weigh approximately 1/3 the listed weights.

Engraving

Engraving may be added on many pulls. Call factory for pricing.

Most of Rockwood's products are available in all of the following architectural finishes. The catalog indicates exceptions. This finish list is grouped by base metal.

	Dark Oxidized Satin Bronze, Equivalent	10BE	US10BE	(613E)

Special Finishes Description

32DMS (MicroShield®): As part of its promise to provide innovative solutions to their customers, ASSA ABLOY Group companies offer the MicroShield® technology, a silver-based antimicrobial coating designed to inhibit the spread of germs and bacteria.

32316 and 32D316 are made from alloy 316 stainless steel containing molybdenum and extra nickel giving it substantially higher corrosion resistance than the standard stainless steels typically used in door hardware. This finish is ideal for use in coastal, urban, and industrial areas that have harsh environmental conditions.

3LIFETIME is a PVD (physical vapor deposition) finish. The finish is a thin hard metallic film of extreme durability that looks like polished brass. **3LIFETIME** brass finish will not tarnish and is ideal for use in exterior and marine environments.

10BE Dark Oxidized Satin Bronze equivalent: This new finish provides the richness and warmth of the 10B/613 "living" finish, but maintains its original color and appearance and will not fade or wear over time. The 10BE finish is offered by Corbin Russwin, McKinney, Norton, Rixson, Rockwood, SARGENT and Yale, providing visual consistency between ASSA ABLOY Group brands.

* On most bronze finishes we will supply solid bronze material. Where solid bronze material is not available, we will use brass as a base material in its place.

*** Available on select items as indicated by the finish icon throughout the catalog.

Agion has achieved:

Agion's silver antimicrobial has been certified for its material content, recyclability, and manufacturing characteristics. Cradle To Cradle Certified^{CM} products meet established standards for human health, environmental health and recyclability.

Cradle To Cradle Certified^{CM} is a certification mark of MBDC.

MicroShield® is a registered trademark of Yale Security Inc., an ASSA ABLOY Group company.

Push and Pull Bar Mounting Details

Sizing of Push Bars

Flush Doors

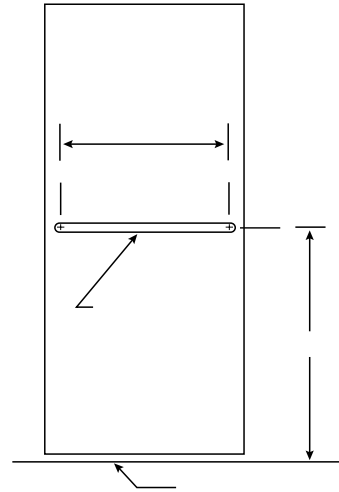

- Door width: • minus 5" for bent end bars
- minus 5" for square end post mount bars
- minus 7" for round end post mount bars

Stile and Rail Doors or Doors with Lites

- Door width: • minus width of one stile

CAUTION: Always confirm bars will not interfere with jamb or cause pinching hazard.

CAUTION: On narrow stile doors, be sure push bar base fits on the stile and bar does not interfere with the stop.

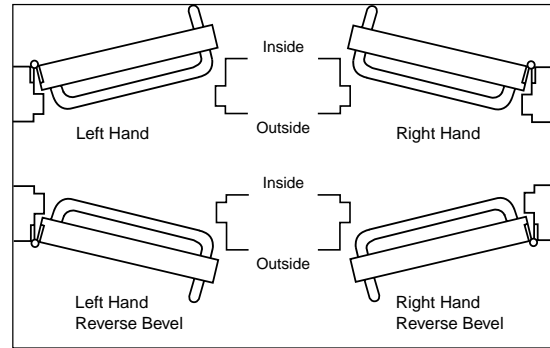

Handing of Doors

The handing of a door is determined from the outside of the opening.

Standing outside the door:

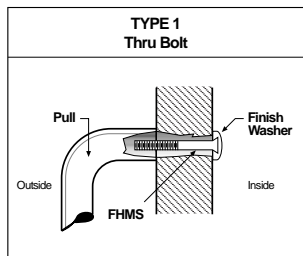

- If the hinges are on the right, it is a right hand door.
- If the hinges are on the left, it is a left hand door.
- If the door opens away from you, it is a regular bevel door.
- If the door opens toward you, it is a reverse bevel door.

*T3 is the standard mounting method for Metal and Wood Doors.

NOTE: Heavy Duty (HD) mounting features hex drive for positive tightening and large overall size for superior strength. Recommended for high frequency and rough service openings.

TYPICAL MOUNTING

Location Standards

Positioning Applications:

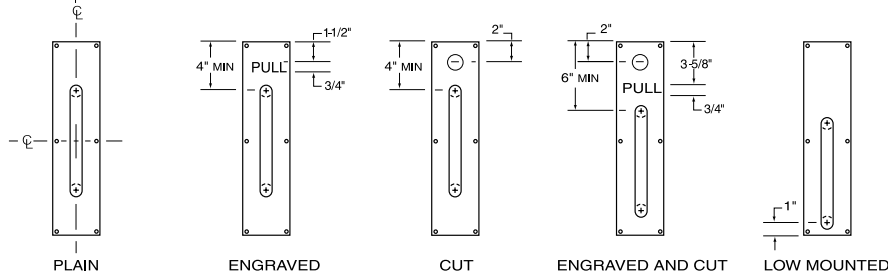

- door pulls to plates
- engraving on plates
- cutouts on plates
- cutout and engraving on plates

NOTE: Be sure the pull you choose will fit on the plate, allowing for cutouts and/or engraving.

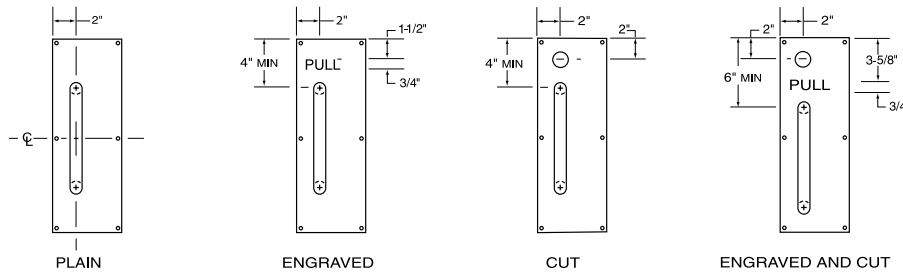

Sizing:

- 1 1/4" standard cylinder hole cutout size
- 3/8" diameter standard turn knob hole
- other cutout sizes and styles are readily available

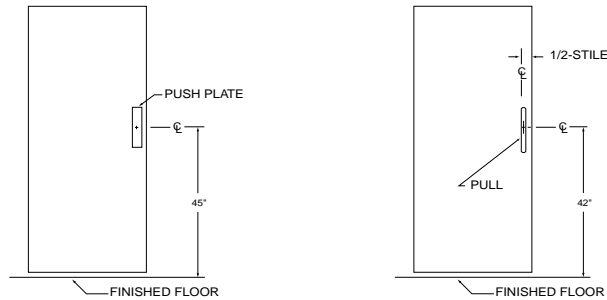

Pull Positioning On Plates 4" Or Less In Width

Pull Positioning On Plates Wider Than 4" (Handing Required)

Recommended Locations On Door

Engraving: 3/4" high condensed block letters with black enamel fill; other letter sizes and styles are readily available.

Description	Price
Engraving "Push", "Pull", "Men" or "Women"	20 (24 for Stainless Steel)
Push Plate Adhesive Mounting	8

Additional Charges Per Thickness of Push Plate

Part	Description	70	71	73	74

CFTT	Cut for Turn Knob	2	3	5	9

ADA Accessibility Guidelines for Buildings and Facilities (ADAAG) as amended through January 1998

4.13.9 Door Hardware. Handles, pulls, latches, locks, and other operating devices on accessible doors shall have a shape that is easy to grasp with one hand and does not require tight grasping, tight pinching, or twisting of the wrist to operate. Lever-operated mechanisms, push-type mechanisms, and U-shaped handles are acceptable designs. When sliding doors are fully open, operating hardware shall be exposed and usable from both sides. Hardware required for accessible door passage shall be mounted no higher than 48 in. (1220 mm) above finished floor.

See page 18 for standard locations and sizes of Cylinder Cutouts (CFC) and Turn Knob Cutouts (CFTT), engraving and pricing.

PIVOTS / STRIKES / FILLER & ANGLE PLATES / PROTECTOR BARS

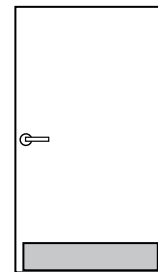

Door Plates Hundred Square Inch Size Chart

To calculate the list price of kick plate, use the hundred square inch number times the list price. Use the next higher even number for odd or fractional sizes. (Example: 9" x 33½" — price as 10" x 34" which is 3.40 square inches.) Take that number times the list price from the following page. (Example: 32D list \$20.00 x 3.40 = \$68.00)

Bulk Pack Kick Plates

Eco-Friendly Packs:

Extra packaging has been eliminated, making it faster to unpack and install, and friendlier to the environment. Packs of fasteners are included in the box.

No.	Size	Pack	Qty/Pack	Price per pack
E-8x34.32D	8" x 34"	Eco-friendly	10	443.83
E-10x34.32D	8" x 34"	Eco-friendly	10	554.88

- .050" thick brushed stainless steel kick plates
- Packaged 10 per pack with the face protected by plastic
- Part numbers are for a 10 pack. Order 1 of the part numbers to purchase 10 kick plates

Shelf Packs:

Perfect for resale! Kick plates are encased in heavy duty packing material which affords extra protection and makes it easier to remove and transport. Fasteners are conveniently attached to each package, ensuring the customer will receive the correct hardware.

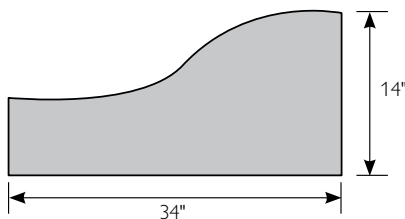

No.	Size	Pack	Qty/Pack	Price per pack
S-8x34.32D	8" x 34"	Shelf Pack	10	496.13
S-10x34.32D	8" x 34"	Shelf Pack	10	620.16

K1050-1 - K1050-8 & K1050A-1 - K1050A-8 (.050" Thick) Shaped Metal Plates Add-On Chart

Add unit price below to list price for kick plate from above chart. Prices are based on same size and same shape.				
Page	Pieces	Up to 16"H 32D/630	>16" - 36"H 32D/630	>36" - 48"H 32D/630
C2-C3	1 - 10 Pieces	77	88	93
C2-C3	11 - 20 Pieces	57	68	74
C2-C3	21+ Pieces	50	61	67

To calculate Shapes™ metal plate price use the largest height x width dimension of the size required to make your design. Refer to "Hundred Square Inch Size Chart" on page 36 and the list price for 32D K1050 kick plates above. Then add the per plate charge using the appropriate row and column from the Shaped Metal Plates Add-On Chart on the left. See calculation example below.

Example: 14" x 34" Per Plate Price Calculation:
4.76 (Plate size from page 36) x \$18.90 (K1050 List Price above) + \$70 (Shapes™ Add On Price) = \$159.96 each.

www.rockwoodmfg.com

ROCKWOOD®
ASSA ABLOY

Prices Effective January 1, 2015

It is our goal that you get the best possible functional and aesthetic door pull from our wide selection. On long door pulls there will naturally be a small amount of flexing between mounting points that are far apart. We offer the following guidelines to help you determine when a mid-post is required or when you should consider altering the location of the mounting posts (by moving them closer together) in order to minimize the flexing of the grip. Making the grip rigid by adding a mid-post is the ideal condition for long pulls on all doors but is particularly important on all glass doors that have an inherent flexing in the door itself. The combined flexing of the door and the pull can loosen mechanical joints and stress the fasteners. Our recommendations for adding a mid-post to long door pulls is based on a theoretical pull load of 30 lbs. (foot pounds) maximum to open the door, which is a greater than the typical force required to open an average door. The maximum amount of deflection of the grip you will see at that force is 3/8". The conditions on your job site can vary due to door weight, wind loading, closer settings, locked doors being aggressively pulled and other circumstances. It is our recommendation that you add a mid-post if there is any question about heavy or hard to open doors; having an extra mounting point always makes for a more stable and durable installation.

POST MOUNTED PULLS SHAPES AND SIZES			
SHAPE	MATERIAL	MATERIAL SIZE	MAXIMUM CTC
ROUND			
	Stainless Steel	1"	70"
		1 1/4"	90"
		1 1/2"	110"
	Brass/Bronze	1"	57"
		1 1/4"	73"
		1 1/2"	87"
Aluminum	1"	66"*	
	1 1/4"	90"*	
	1 1/2"	115"*	
OVAL			
	Stainless Steel	1" x 1 1/2"	100"
		1" x 1 7/8"	119"
FLAT OVAL			
	Stainless Steel	3/4" x 1 1/2"	93"
SQUARE			
	Stainless Steel	3/4" x 3/4"	62"
RECTANGULAR			
	Stainless Steel	1/2" x 1 1/4"	86"
		3/4" x 1 1/2"	110"
	Brass/Bronze	3/4" x 1 1/2"	89"
RECTANGULAR			
	Stainless Steel	1/2" x 1 1/4"	52"
		3/4" x 1 1/2"	75"
	Brass/Bronze	3/4" x 1 1/2"	60"

On long pulls, post can be positioned closer to each other and farther away from ends as a strategy to avoid mid-post if door condition permits.

*The maximum length of anodized aluminum pulls is 87" due to our tank size. Longer aluminum pulls are available in satin finish and clear coated or powder coat paint.
