

HandNet®

for Windows

Overview

HandNet for Windows lets you control and monitor a network of HandKey readers. With just one comprehensive program, you can monitor activity and alarms on all readers, and control the access of each user.

Features and benefits

- Automatic hand template management feature allows template distribution from an enrollment HandKey to other selected HandKeys thus eliminating the need for a user to be enrolled at every HandReader
- Independent door control capability without the need for an access control panel
- Monitor multiple remote sites from the convenience of your PC
- Remote enrollment feature enables a HandKey to be controlled from the software. For example, a guard behind a glass partition or a supervisor in a distant office can enroll new users without physically going to the HandKey
- Assign temporary access to selected users by specifying a user's access start and stop days and times
- Manage archive activity to keep old information available for reports
- Manage alarms for additional security

Specifications	HandNet For Windows	HandNet Lite
Computer	Intel Pentium 1 GHz or higher, AMD Athlon 1GHz or higher	Intel Pentium 1 GHz or higher, AMD Athlon 1 GHz or higher
Operating system	<ul style="list-style-type: none"> ▪ Windows XP SP3 32-bit ▪ Windows 7 Professional SP1 32-bit and 64-bit ▪ Windows 8 Professional 32-bit and 64-bit 	<ul style="list-style-type: none"> ▪ Windows XP SP3 32-bit ▪ Windows 7 Professional SP1 32-bit and 64-bit ▪ Windows Server 2003 SP3 32-bit
