

RELIABILITY AND PERFORMANCE INSTALLED ON EVERY DOOR.

APEX 2000 SERIES

PRECISION Apex 2000 Series Exit Devices Make Every Door Safer and More Secure.

Since 1946, Precision Hardware has used an investment cast process to manufacture high quality, long lasting exit devices for use in schools and healthcare facilities. Designed with a minimal number of moving components, the Apex 2000 Series requires minimal maintenance. That translates to a longer life span and a lower overall cost of ownership.

Preferred by many of the nation's largest education and healthcare facilities, PRECISION is a leader in panic and fire exit device products.

Mechanical locks, hardware and patented key systems. The foundation of a complete security strategy.

APEX 2000 SERIES

DURABILITY BACKED BY OUTSTANDING PERFORMANCE.

Exit devices do more than just help secure the door. They can be used to control access to a building from the outside and are a critical part of ensuring life safety by allowing fast, easy egress in an emergency.

- **Durable** – Independent **UL tested to 10 million cycles** and each incremental millionth cycle, far exceeding industry standards
- **Reliable** – Investment cast steel chassis provides maximum security against forced entry and reduces the risk of bending
- **Easy to Maintain** – Few moving parts with single spring push-bar operation means no parts or maintenance kits are required
- **Reduced Repair Cost** – Hardened steel hex dogging assembly offers a large diameter wrench, which reduces metal fatigue from repeated dogging operations
- **Contemporary Style** – True architectural finish allows for a uniform look throughout the product line
- **Stock Friendly** – Universal function, field reversible and no parts kit required
- **Easy to Operate** – Low profile push-bar endcaps and no exposed pinch points or garment snags provide easy egress for carts, beds, etc.

PRECISION Performs.

Since 1946, Precision Hardware has been the leader in providing panic and fire exit devices for commercial buildings. As part of the STANLEY family, PRECISION continues to offer innovative and well-designed door hardware that helps protect buildings, people and property.
