MT20

Multi-technology enrollment reader with ENGAGE™ technology

Overview

The aptiQ™ MT20 USB multi-technology enrollment reader with ENGAGE™ technology is designed to simplify your enrollment process. The MT20 simplifies the enrollment of proximity, smart or mobile credentials in an access control system by using a computer's USB connection. The MT20 does not require software to operate when using a USB connection and will function on any operating system. When using the ENGAGE Web Application, the MT20 will automatically output the data in the expected format. The USB connection emulates a keyboard and will keystroke the facility code and badge ID from the credential to the cursor's location on the screen.

The MT20 is compatible with aptiQ smart credentials (MIFARE® Classic and MIFARE DESFire™ EV1), aptiQmobile™ credentials and most proximity credentials.

Features and benefits

- Use your computer and the ENGAGE web app to easily enroll credentials in your access control system
- Recognizes aptiQ smart credentials (MIFARE® Classic and MIFARE DESFire™ EV1), aptiQmobile credentials and most proximity credentials
- Limited Lifetime Warranty
