Schlage Control™
Smart Deadbolt

Connect and control more doors.

A whole lot easier than ever before.

![SCHLAGE logo]

Security has always been at the heart of all our products.

Today we can deliver so much more.

Walter Schlage invented the cylindrical lock in 1920; since then Schlage has consistently delivered innovation and continuous improvement. Now, we've added the latest technology to our world-class mechanical locks to deliver a new level of efficiency and convenience for your facility.

By adding built-in intelligence and communication technology Schlage Control,™ LE, and NDE wireless locks can help your staff:

- Increase productivity by managing locks and electronic credentials from virtually anywhere
- Save time by eliminating the need to visit locks to make changes
- Review and export lock usage and history for detection and diagnostics
- Reduce risks associated with lost or stolen keys

So if you are looking for an affordable way to improve security while reducing operational costs, open the door to Schlage wireless locks.

Bring the added benefits of wireless security to any door.

Reduce the time and costs associated with managing keys due to frequent turnover

Enhance security with more visibility and control

Increase efficiency by enabling updates to occur from virtually anywhere

Integrated lock, reader and sensors simplifies installation.

Mitigate risks associated with lost or stolen keys, provides a detailed audit of events

Increase satisfaction by enabling convenient card access to shared spaces

Integrates seamlessly into existing EAC systems[1]

[1] Requires alliance member software; consult your Allegion rep for more information.

Designed to work together in commercial, institutional and multi-family properties.

Schlage Control,™ LE, and NDE wireless locks share the following features:

- Built on robust, reliable mechanical platforms
- Built-in credential reader and sensors for simplified installation
- Built-in Bluetooth® and Wi-Fi[1] connectivity
- Up to 2-year battery life with typical use

[1] Wi-Fi available on NDE and LE only

Schlage NDE
