

## Residence hall room doors

Education solutions

Residence halls are often expected to have the highest level of access control. But the students who live there are equally concerned about convenience, creating a need to minimize the credentials that are carried every day, which can be easily lost or stolen.

Access must be managed around the clock, and balanced with the need for fire and life safety. In addition, many residence halls are older buildings that make it impossible to run new wiring to support hard-wired electronic systems.

### Residence hall room door operational requirements:

- Door is normally secured
- Access is possible by valid credential or keypad
- Free egress is available at all times

## Innovative solutions for residence hall doors

A safe and secure residential room door includes these smart, effective and innovative solutions exclusively from Allegion:

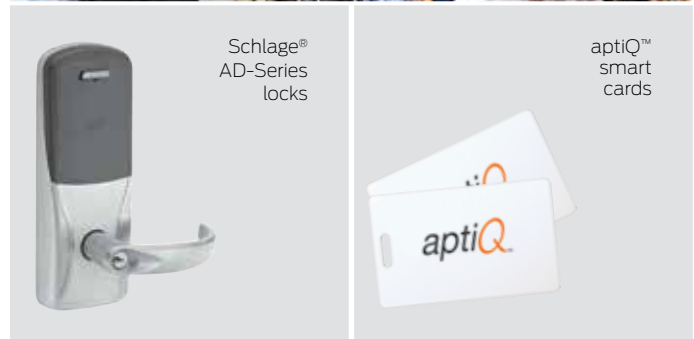

### Schlage® AD-Series wireless electronic locks

- The innovative modular design of the AD-Series allows you to upgrade reader or networking options without taking the lock off the door.
- Colleges can start with an AD-200 standalone lock and migrate to an AD-400 wireless networked solution over time as budget permits.
- AD-Series networked locks enable real-time centralized lockdown.
- The AD-Series, designed on an open architecture platform, can be fully integrated with many leading access software providers.

### aptiQ™ smart cards

- Smart cards employ advanced security features that make them an ideal credential for residential areas on campus.
- These cards can also store data and integrate with other systems in place at a school or university for services like cashless vending.
- Credentials like smart cards prevent unauthorized access because they can't be duplicated without authorization.

Note: These security solutions are designed only as a guide and do not take into consideration local codes and regulations that may be in place. Please contact your local Allegion representative to design a specification to meet your unique needs.

## Start with Allegion

Call **877-671-7011**

- Speak to a specification writer about building standards, code compliance or specification assistance
- Speak with a sales associate about our solutions, grant funding or seamless integration with your one card system
