# Lock Functions

## Euroline Introduction

Most of us in the door hardware industry are familiar with ANSI - American National Standards Institute, BHMA - Builders Hardware Manufacturers Association, along with UL - Underwriters Laboratories and Intertek. However these standards and fire codes, which are strictly enforced in the United States and Canada, are not customary in approximately 90% of the rest of the world.

European standards - EN and CE - are dominant in Europe, the Middle East and most of Asia. Any hardware products sold into areas that embrace these standards must meet their cycle and fire tests, which are completely different than those of ANSI and UL.

Hager Companies launched the Euroline in late 2008 to provide a comprehensive product line that meets and exceeds EN and CE standards. It currently consists of a complete product portfolio including hinges, trim and auxiliary, door controls, exit devices, mortise locks, cylinders, levers, and accessories.

Since that time the product line has expanded and Hager Companies has been successful in marketing in Latin America, the Middle East and Asia. In addition, our Euroline products recently passed separate stringent fire tests in Mainland China. This will allow Hager Companies to furnish our products throughout the Peoples Republic of China on commercial buildings.

As always, service is our number one priority and that is true for our global customers as well. We have representatives across the globe as well as distribution centers in Dubai, United Arab Emirates and Zhuhai, China.

European locksets are sold in component form: lock body, lever set and cylinder. This allows end users to mix and match cylinders, levers and lock bodies from a vast array of different manufacturers. It also allows multiple mechanical and electronic keyways to be used interchangeably. This modular approach allows for greater flexibility on the jobsite.

## Lock Components

## Symbol Key

Picture	Function	Function Description	Required Parts
	Passage	Latch bolt operated by lever from either side at all times.	3800U-55L Leverset
	Bathroom Indicator	Latch bolt operated by lever from either side at all times. Dead bolt operated by thumbturn from inside and by emergency release with indicator from outside.	3800U-55B Leverset 2-669-0736
	Privacy	Latch bolt operated by lever from either side at all times. Dead bolt operated by thumbturn from inside and by emergency release from outside.	3800U-55S Leverset 3000R
	Classroom	Latch bolt operated by lever from either side. Dead bolt operated by key from outside. Operating inside lever retracts both latchbolt and deadbolt simultaneously.	3800U-55P Leverset Split Spindle* 3000H
	Storeroom	Latch bolt operated by key from outside or by operating inside lever. Outside lever never retracts latch.	3800U-55M Leverset Half Spindle** 3000H
	Security Storeroom	Latch bolt operated by key from outside or by operating inside lever. Outside lever never retracts latch. Auxiliary dead latch.	3800U-55T Leverset Half Spindle** 3000H
	Exit	Latch bolt operated by lever from either side. Dead bolt operated by key from outside and by thumbturn from inside. Operating inside lever retracts both latchbolt and deadbolt simultaneously.	3800U-55P Leverset Split Spindle* 3000C
	Entrance	Latch bolt operated by lever from either side. Dead bolt operated by key from either side.	3800U-55S Leverset 3000D

\* Use the split spindle in place of the spindle that comes with the leverset.

\*\* Use the half spindle going into the inside lever in place of the spindle that comes with the leverset.

\*\*\* Do not install the spindle that comes with the leverset.

## Lock Functions

Picture	Function	Function Description	Required Parts
	Bedroom	Latch bolt operated by lever from either side. Dead bolt operated by thumbturn from inside and emergency release from outside. Operating inside lever retracts both latchbolt and deadbolt simultaneously.	3800U-55P Leverset Split Spindle* 3000R
	Dormitory	Latch bolt operated by lever from either side. Dead bolt operated by key from outside and thumbturn from inside.	3800U-55S Leverset 3000C
	Institutional	Latch bolt operated by key from either side. Neither lever retracts latch.	3800U-55M Leverset*** 3000D
	Security Institutional	Latch bolt operated by key from either side. Neither lever retracts latch. Auxiliary dead latch.	3800U-55T Leverset*** 3000D
	Security Classroom	Latch bolt operated by lever from either side. Dead bolt operated by key from inside or outside. Operating inside lever retracts both latchbolt and deadbolt simultaneously.	3800U-55P Leverset Split Spindle* 3000D
	Double Dead Bolt	Dead bolt operated by key from either side. No latch.	3800U-55F 3000D
	Privacy Dead Bolt	Dead bolt operated by key from outside and by thumbturn from inside. No latch.	3800U-55F 3000C
	Single Deadbolt	Dead bolt operated by key from outside only. No Latch	3800U-55F 3000H

\* Use the split spindle in place of the spindle that comes with the leverset.

\*\* Use the half spindle going into the inside lever in place of the spindle that comes with the leverset.

\*\*\* Do not install the spindle that comes with the leverset.
