

The **radically simplified** access control platform for small and growing businesses.

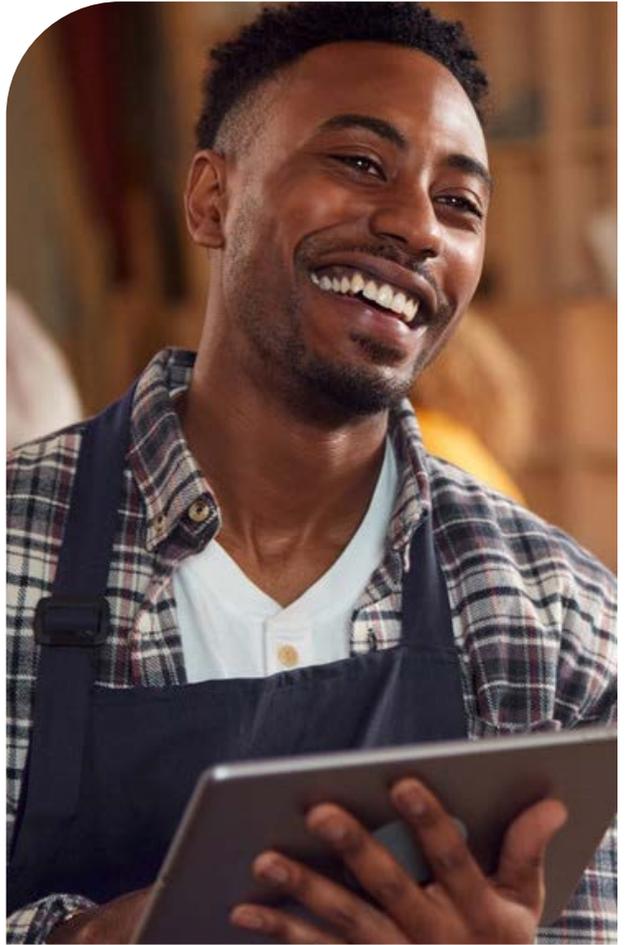

US Pricing Catalog Effective August 23rd, 2024

Be there when you can't be there.

Centrios is the access control platform that allows you to be exactly where you need to be no matter where you are.

Grant access to employees or vendors, quickly unlock your openings with a touch of your phone, easily manage schedules and view access history.

Software and hardware designed for businesses — easy to install and simple to use.

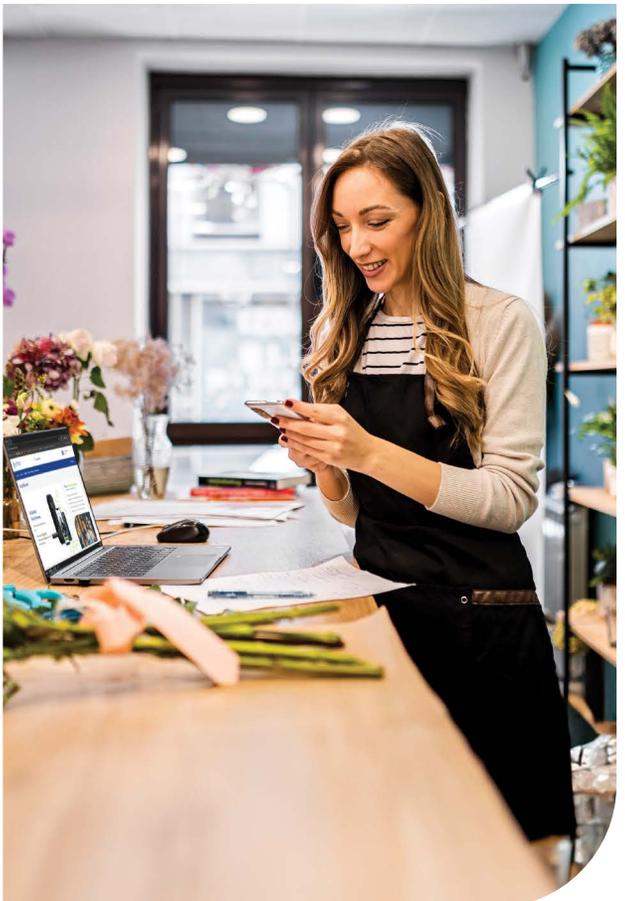

2-year warranty and 24/7 support resources.

Training and video installation guides available on demand.

Manage up to 20 doors and 100 users in a single system.

Smart Reader

CER

The Centrios Smart Reader enables you to unlock virtually any door with electrified hardware from perimeter openings, to garages, glass doors, and gates.

Features & Benefits

- Capacitive keypad
- FCC/IC Certified
- ADA Compliant
- 2 configurable output relays
- 2 inputs (door position switch & ready to exit)
- -40° F to 122° F

Bluetooth mobile access via the Centrios mobile app.

Two relays, one programmable from 0-30 seconds. Request to exit input (REX). Door position switch (DPS) input. Triggers auto-operator on delay.

12-24 VDC. Dedicated power source recommended. Relays tested up to 2 amps.

Mounts to frames, walls, or a J-box (trim plate included). Simple installation; 2 screws and back plate.

More Information

Information on the products that come in the Smart Reader Kits.

HES 5000C

The 5000 series is a compact, high performance electric strike designed for low profile openings where there is limited space behind the jamb.

HES 1500

The HES 1500 Series Electric Strike sets a new standard in the industry by offering dynamic integrated adjustability and field configurable options compatible with any cylindrical or mortise lock.

Adams Rite 7400

Designed for use with Adams Rite deadlatches or cylindrical lock-sets with 1/2" [12.7 mm] to 5/8" [15.9 mm] latchbolt projection.

HES 9400

The HES 9400 series is a slim-line, outdoor rated surface mounted electric strike designed to accommodate rim exit devices with a 1/2" Pullman latch.

HES 9600

The 9600 Series is a windstorm rated, surface mounted electric strike designed to accommodate rim exit devices with a 3/4" throw latch.

Alarm controls NTB-3

These surface mounted, request to exit solutions provide greater flexibility, without the need to make costly modifications, extending access control in an easy way.

Securitron DPS

Used to monitor the status of a door. Includes a magnetic switch and a cylindrical permanent magnet.

Securitron AQL4

The UL-listed Securitron AQL4 Series of dual voltage, field selectable switching power supplies provides 4 Amps at 12 VDC or 3 Amps at 24 VDC.

Cylindrical Lock

CEB100/102

The cylindrical lock from Centrios is designed specifically with business owners in mind. Engineered for speed of installation, ease of use, and mixed functionality, the cylindrical lock is the perfect starting point for your Centrios system.

Features & Benefits

- ANSI/BHMA A156.2 Grade 1
- UL10C 3-hour fire rating
- IP57 weather resistance to allow full exposure to both sides of the door
- FCC/IC Certified
- ADA compliant
- Deadlocking latch
- -35° F to 140° F

Bluetooth mobile access via the Centrios mobile app. Privacy mode with included door position sensor installation. Full-time passage egress.

Operates one year on four AA batteries (included). Exterior emergency 9VDC power backup.

Unique LED for lock events and alarms. Key in lever design for fixed core. Configurable auto relock. Wireless door position sensing (DPS).

Designed to be quick and easy to install — with in-field handing and patent pending automatic adjustability from 1-3/8" to 2-1/4" thick door without tools.

Definitions & Dimensions

Strikes

Centrios offers four strike styles to accommodate the most common applications. You must select a strike when placing your Centrios Cylindrical Lock order.

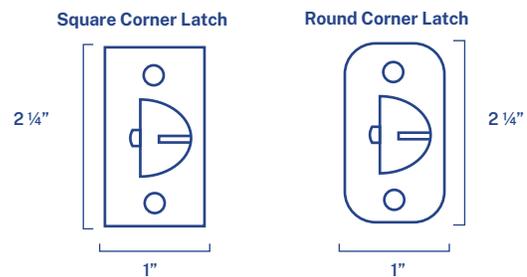

When planning your installation, review the existing strike and verify if the existing latch has a square or round corner so you can order accordingly.

Latches

Centrios offers two different latch styles for the Cylindrical Lock. Square corner, and round corner.

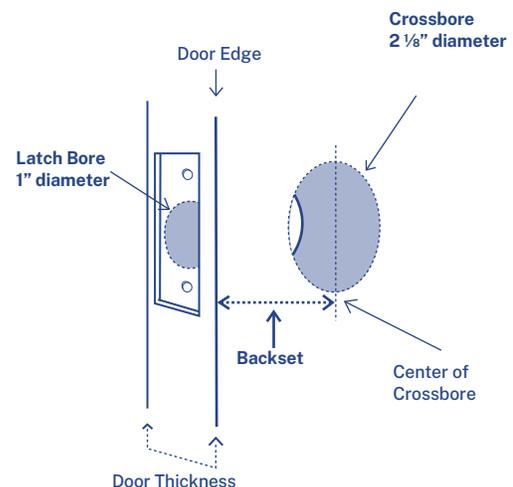

When planning an installation, verify if the existing latch has a square or round cornered latch so that you can order accordingly.

Backsets

A backset is the measurement from the edge of a door (latchside) to the middle of the bore. The measurement is generally 2 3/4" or 2 3/8". You must select a backset when placing your Centrios Cylindrical Lock order.

When planning your installation, review the existing backset so you can order accordingly.

Accessories

Additional latches available for purchase.

Description	Model	Finish	List Price

Freight Terms

All Purchase Orders received with a minimum value of \$3,500 will qualify automatically for free standard freight within the continental United States. This minimum amount applies per Purchase Order to qualify and does not include free expedited freight. Qualified orders may ship partial or ship complete at your preference. Qualified orders that ship partial will not incur freight charges. All shipments that do not qualify for free freight will be charged for freight based upon our terms in effect at the time of shipment. Customers may provide their own carrier account number for expedited freight methods or for any Purchase Order to be used to cover freight costs. Minimum amounts are subject to change without notice.

Returns

There will be a 35% restocking fee for all returned product. For a return/restock, product must be in original, unmarked, undamaged, and re-sellable cartons, be valued in excess of \$250.00 net, have shipped and been invoiced within the past 120 days, not be custom, non-catalogued, or master keyed. All orders sent back for restocking must be approved and are subject to inspection upon receipt. Restocking fees will be deducted from the value of the credit following inspection.
