Electrical Modifications

The Pemko Electrical Modifications have vastly improved the cycle performance of the electrically modified hinge. Performance testing has shown that 3,000,000+ cycles can now be achieved using the Pemko's exclusive polyurethane-coated 4, 8, or 12 TRI-FLEX titanium copper alloy cables. Each cable is capable of carrying 7 amps continuous or 16 amps in-rush @ 24 volts in-rush for 820 milliseconds. When ordering, please use the "shorthand code". For example, if you require a Clear Anodized standard Full-Mortise hinge at 83" with Quick Connect transfer - 4-wire, modified 36-1/4" from the top, right hand, you would order a CFM83 with QC4 at 36-1/4" from top - RH.

IMPORTANT NOTE: A 4 amp in-line fuse must be used between the hinge cable and the power supply or warranty will be voided. A fuse is not included as it is usually supplied with the power supply.

Markar Continuous Pin and Barrel Hinges

Markar Continuous Pin and Barrel Hinges have led the way in innovative products for the hardware industry since 1969. In 1983, the first architectural grade adjustable continuous pin and barrel hinge line was introduced. That innovation continues today with quality continuous hinges and edge guards.

Markar Continuous Hinges lead the industry in fire rated continuous hinges with the flagship 300 Series Stainless Steel, 3500 Series institutional grade, 600 Series 316 Stainless Steel, and 200 Series zinc plated cold rolled steel hinges. Building on customer feedback, over 75 standard continuous hinge models provide products for a wide variety of applications and challenges.

Medical Bearings are Standard

Medical Bearings are standard for all Pin and Barrel hinges, except 400 and 900 series hinges. Permanently lubricated hinges with no metal to metal contact, improve the life and overall function of the hinge.

Special Order Fasteners

Assemblies are supplied with #10 stainless steel wood screws. Stainless steel machine screws and expansion shields (MSES10SS or MSES25SS) or flat head sleeve anchors (FHSL) are available at an extra cost.

Assemblies which are 7" or wider require more than 1 row of fasteners. Therefore, fastener prices double, triple, quadruple, etc. depending upon the number of rows of fasteners across the width of a given assembly. A list of fastener options are shown on page 4 of this price list. The following chart shows MSES25SS:

Threshold Width	# of Fastener Rows	List Price Add
2" to 6-7/8"	1 Row	1.68 / ft
7" to 12-7/8"	2 Rows	3.36 / ft
13" to 18-7/8"	3 Rows	5.04 / ft
19" to 24-7/8"	4 Rows	6.72 / ft
25" to 30-7/8"	5 Rows	8.40 / ft
31" to 36-7/8"	6 Rows	10.04 / ft

Therefore, the List Price Adder for MSES25SS for a R1.75OSSA36 is: \$8.40 (5 rows at \$1.68 / ft) x 3 (3 feet) = \$25.20
