## RETAIL PRICE LIST 2020

PART #	DESCRIPTION	RETAIL PRICE
<b>SafePath™ Door Activation &amp; Safety Sensor Products</b> 		
<b>Microwave Sensors</b>		
<b>microStar-M</b>	 <p>Microwave Motion Sensor w/Human Presence Radar™ (HPR™) for activating all types of automatic doors. Unparalleled motion detection protects slow moving pedestrians from doors closing prematurely.</p> <ul style="list-style-type: none"> <li>• Fits 1 3/4" door frames</li> <li>• Visible LEDs to verify activation</li> <li>• Install mode lets pattern be set without cycling doors</li> <li>• HPR™ provides additional level of motion protection after initial door activation</li> <li>• Adjustable Unidirectional &amp; Bi-directional</li> <li>• Narrow &amp; Wide Pattern Antennas</li> <li>• Dual Axis Angle Adjustment</li> </ul>	<b>253</b>
<b>microStar Accessories</b>		
<b>MS-BDB</b> - Universal mounting bracket for microStar.		<b>28</b>
<b>MSRC</b> - Rain cover.		<b>45</b>
<b>Industrial Door Sensors</b>		
<b>OAM-Explorer</b>	 <p>Combination Microwave &amp; Active Infrared Industrial Door Sensor.</p> <ul style="list-style-type: none"> <li>• Provides both activation and safety in a single sensor</li> <li>• Selectable vehicle only detection or pedestrian vehicle detection</li> <li>• Set up available via optional smart phone app</li> </ul>	<b>490</b>
<b>ID20</b>	 <p>Long-Range Microwave Motion Sensor for activating industrial doors.</p> <ul style="list-style-type: none"> <li>• Provides motion detection for vehicles and equipment up to 60 ft. away</li> <li>• Sealed aluminum, weather proof housing</li> <li>• Selectable Approach-only or Depart-only detection reduces unwanted door openings</li> </ul>	<b>702</b>
<b>HR-Robus</b>	 <p>High mount Microwave Motion Sensor for activating industrial or pedestrian doors.</p> <ul style="list-style-type: none"> <li>• Provides motion detection for vehicles and/or pedestrian traffic</li> <li>• Two outputs selectable for pedestrian detection, vehicle detection, or both</li> <li>• Maximum installation height of 23 feet</li> <li>• Selectable Bi-directional, Approach-only or Depart-only detection reduces unwanted door openings</li> </ul>	<b>346</b>
<b>HR-Robus Accessories</b>		
<b>Robus-RC</b> - Remote control for programming and control of HR-Robus.		<b>225</b>
<b>Infrared Sensors</b>		
<b>DH400</b>	 <p>Floor Reflection Method Active Infrared Presence Sensor. Provides safety protection for all types of automatic pedestrian doors.</p> <ul style="list-style-type: none"> <li>• One sensor covers safety zone application (single or pair: swing, slide, fold)</li> <li>• 5 rows of 12 points per row provide up to 60 detection zones for a dense safety pattern</li> <li>• Adjustable pattern width and depth</li> </ul>	<b>382</b>
<b>DH94</b>	 <p>Floor Reflection Method Active Infrared Presence Sensor. Provides safety protection for automatic pedestrian sliding doors with shallow approaches.</p> <ul style="list-style-type: none"> <li>• 4 rows of 32 individual detection zones provides a dense safety pattern</li> <li>• Adjustable pattern width and depth</li> </ul>	<b>281</b>

## RETAIL PRICE LIST 2020

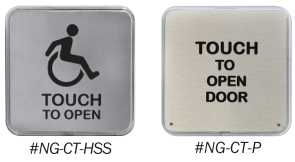

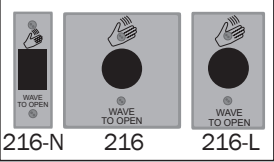

PART #	DESCRIPTION	RETAIL PRICE
<b>Sedco™ Door Activation Switch Products (continued)</b>		
<b>Switch Accessories</b>		
<b>12024</b>	- 24V AC transformer.	<b>18</b>
<b>2WIRE Module</b>	- Module that allows connection of NexGen wired or 216 series switches using only 2 wires.	<b>112</b>
<b>BRM Bridge Rectifier Module</b>	- Converts AC voltage to DC voltage. 100 V AC maximum.	<b>28</b>
<b>E13-25JA</b>	- UL listed replacement SPDT micro-switch. Includes mounting nuts and spring.	<b>13</b>
<b>DPDT Option</b>	- Double Pole Double Throw switch. Add suffix DPDT to part number (example: 59-H-DPDT).	<b>15</b>
<b>E19-00J</b>	- UL listed DPDT micro-switch. Includes mounting nuts and spring.	<b>28</b>
<b>614-1RBUT, 614-1ABUT (anodized), 614-1BBUT (black)</b>	- 1" dia. SPST replacement piezo button switch only.	<b>79</b>
<b>Face Plates</b>	- Replacement face plates for standard switch. Add suffix PO to part number (ex: 59-H-PO).	<b>45</b>
<b>HDWE</b>	- Screw packs for mounting switches.	<b>7</b>
<b>RCM Relay Conversion Module</b>	- Module that allows a single input signal to operate two discrete outputs.	<b>56</b>
<b>RIM Relay Isolation Module</b>	- use where higher current may exceed std. relay ratings (i.e. locks, alarms, etc.)	<b>56</b>
<b>WR UPGRADE</b>	- Water resistant microswitch and wires. Add suffix WR to part number.	<b>73</b>
<b>WR-KIT</b>	- Field installable water resistant microswitch and wires.	<b>73</b>
<b>10001</b>	- Gasket compatible with 59 Series switches.	<b>7</b>
<b>Switch Mounting Boxes</b>		
All mounting boxes are exterior grade polycarbonate surface mounting boxes designed so the switch will recess mount for superior weather protection and to eliminate potential snagging.		
<b>One Piece Mounting Boxes:</b>		
<b>1035 Universal Jamb Box</b>		
	2" deep jamb box. Compatible w/59J Series and other jamb mount switches.	<b>34</b>
<b>255-R</b>		
	2-gang recessed mount box.	<b>34</b>
<b>Two Piece Mounting Boxes:</b> 2 Piece design makes battery replacement quick and easy for wireless applications.		
<b>1015 High Profile Universal Square Box</b>		
	Compatible w/59, 59V, 1078, 216, 830, & 614 series switches.	<b>34</b>
	10001 gasket for additional weatherproofing; order separately: \$7.00	
<b>1010</b>		<b>34</b>
	Compatible with 59J & 614-NSS Series switches	
<b>1020 Low Profile</b>		<b>34</b>
	Compatible with 59, 216, & 614 Series switches	
	10001 gasket for additional weatherproofing; order separately: \$6.00	
<b>1025</b>		<b>34</b>
	Round boxes compatible with all 59R4 Series switches	
<b>1030</b>		<b>34</b>
	Round boxes compatible with all 59R6 Series switches	
<b>Escutcheon Rings</b>		
		
Attractive stainless steel rings that can be surface mounted directly to the wall or attached to a single-gang or 2-gang electrical box.		
• <b>ESC-59R4:</b> Plate for 59R4 Series Switches		<b>101</b>
• <b>ESC-59R6:</b> Plate for 59R6 Series Switches		<b>112</b>

## RETAIL PRICE LIST 2020

PART #	DESCRIPTION	RETAIL PRICE
<b>608, 628 and 514 Series Door Activator Switch Bollards w/LongLife™ Finishes</b>		
Heavy duty construction. Each bollard is made from 1/8" thick tubular steel with a two-coat industrial grade exterior powder coated finish; these switch bollards are the most durable available.		
<b>608 AND 628 BOLLARD ASSEMBLIES INCLUDES:</b> 5" X 5" X 42" Bollard w/LongLife™ Finish, Rugged Polycarbonate Cap and ABS Plastic Rust Shield. Standard Steel "U" Shaped Mounting Shoe included for part number ending in 42. <b>Surface external option</b> features mounting plate welded to bottom of bollard to provide additional stability and easier installation. For Surface external option, change 42 to SE on part number, at no additional charge. <b>In-Ground Mounting option</b> features Steel "U" Shaped Mounting Shoe with 16" flange that extends into the ground, making the entire bollard assembly 58". For In-Ground option, change 42 to 58 and add \$40.		
<b>608 Blank Bollard Assembly Only</b>	Customize in the field. Bollard has no cutout preps. • 608-GR-42: Gray Bollard Assy For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black): In-ground mounting shoe add \$40.00; Change Suffix 42 to 58	<b>404</b>
<b>608-J Bollard Assembly with Switch Cutout</b>	Add your own switch. Bollard is prepped with a 2-gang cutout (2 7/8" x 3 1/4"). • 608-J-GR-42: Gray Bollard Assy w/2-Gang Cutout For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black): In-ground mounting shoe add \$40.00; Change suffix 42 to 58	<b>416</b>
<b>608-R Bollard Assembly with Recessed Switch Cutout</b>	Add your own switch. Bollard is prepped with recessed switch cutout and mounting bracket (5" x 5" cutout). • 608-R-GR-42: Gray Bollard Assy w/2-Gang Cutout For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black): In-ground mounting shoe add \$40.00; Change suffix 42 to 58	<b>427</b>
<b>608 Bollard Assembly with Recess Mounted Switch</b>	 Includes everything needed. Bollard assembly with recess mounted 59 Series Switch installed. • 608-H-GR-42: Gray Bollard Assy, Recessed 59-H • 608-HSS-GR-42: Gray Bollard Assy, Recessed 59-HSS • 608-P-GR-42: Gray Bollard Assy, Recessed 59-P • 608-W-GR-42: Gray Bollard Assy, Recessed 59-W • 608-WSS-GR-42: Gray Bollard Assy, Recessed 59-WSS For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black), Surface External Option (Foot), Change Suffix 42 to SE. In-ground mounting shoe add \$40.00; Change suffix 42 to 58	<b>505</b>
<b>608 Bollard Assembly with Wireless Recess Mounted Switch</b>	 Complete wireless package. Bollard assembly with recess mounted 59 Series Switch installed, transmitter and mounting platform (CP/TX-P). • 608-HT-GR-42: Gray Bollard Assy, Recessed 59-H, CP/TX-P • 608-HSST-GR-42: Gray Bollard Assy, Recessed 59-HSS, CP/TX-P • 608-PT-GR-42: Gray Bollard Assy, Recessed 59-P, CP/TX-P • 608-WT-GR-42: Gray Bollard Assy, Recessed 59-W, CP/TX-P • 608-WSST-GR-42: Gray Bollard Assy, Recessed 59-WSS, CP/TX-P For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black), Surface External Option (Foot), Change Suffix 42 to SE. In-ground mounting shoe add \$40.00; Change suffix 42 to 58 Sequencing transmitter add \$20.00; Change T to S; ClearPath Spectrum, add \$30; Change T to -TRX (example: 608-H-TRX-GR-42)	<b>590</b>
<b>608 Vestibule Bollard Assembly with 59V Vestibule Switch</b>	 Includes everything needed to activate 2 doors. Bollard assembly with 59V Series Vestibule Switch. • 608-HV-GR-42: Gray Bollard Assy, 59V-H • 608-HSSV-GR-42: Gray Bollard Assy, 59V-HSS • 608-PV-GR-42: Gray Bollard Assy, 59V-P • 608-WV-GR-42: Gray Bollard Assy, 59V-W • 608-WSSV-GR-42: Gray Bollard Assy, 59V-WSS For alternate colors, change GR to BR (Dark Bronze), WH (White), or BL (Black), Surface External Option (Foot), Change Suffix 42 to SE. ## RETAIL PRICE LIST 2020

PART #	DESCRIPTION	RETAIL PRICE
	<b>The Commander Series Timing Controls &amp; Lock Out Modules</b>	
<b>TDM Time Delay Module</b>		<b>107</b>
	Universal Time Delay Module provides up to 4 inputs that can be converted to sequential relay outputs. Each output is adjustable 0-99 seconds. The TDM can add additional time of 0-99 seconds, sequence electric locks and automatic doors or sequence vestibule doors all from a single device.	
<b>TDM-HC High-Current Time Delay Module</b>		<b>214</b>
	TDM with the output 1 relay rated for a current inrush of 20 amps, making the TDM-HC compatible with all common locking devices.	
<b>RLM-Kit</b>		<b>253</b>
	Integrated Relay Lockout Module with Safety Beams. Intelligent Door Position™ Monitoring Circuitry determines relay lockout time during a door's closing cycle, eliminating the need for trial and error manual adjustment. Provides single source control of approach sensor, overhead safety sensor and safety beams installed on swing door operators.	
<b>RLM Components</b>		
<b>RLM</b>		<b>118</b>
RLM Control Module ONLY		
<b>RLM-SB</b>		<b>146</b>
1 set TX & RX Sensor Heads with 15' cables.		
<b>SAM Secondary Activation Module</b>		<b>135</b>
	Integrated Timing Module to meet secondary activation requirements of Knowing Act Swing Doors. Intelligent Door Position™ Monitoring circuitry determines the timing for turning on and off an approach sensor after initial door activation by a push plate while simultaneously monitoring the overhead safety sensor and locking out its signal during a door's closing cycle. Provides single source control of push plate, approach (secondary activation) sensor and overhead safety sensor.	
<b>PTM Privacy Timing Module</b>		
	The PTM is a timing module that allows users to control an automatic door operator for a room where privacy is a concern, such as a washroom, restroom, clean room, or photo development room. From the outside of the room, users are able to activate the door. Once inside, users are able to lock the door which prevents access from the outside "push to open" button. When egress is desired, the user presses an inside "push to open" button which deactivates the lock and activates the door. A keyswitch override is present on the exterior, as well as LEDs to indicate if the room is occupied.	
	<b>PTM:</b> (module and wire harness only)	<b>179</b>
	<b>PTM-KIT:</b> Includes module, wire harness, interior dual switch (59V-PTM), exterior combo switch (830B-59J-PTM), and door position switch.	<b>455</b>

## DOOR PRODUCTS REPAIR & RETURN POLICY

**PRIOR to returning products to MS SEDCO for any reason, Customers must first complete and submit an MS SEDCO Return Merchandise Authorization (RMA) form.** To request our RMA form, simply email [rma@mssedco.com](mailto:rma@mssedco.com) or call Customer Service at 317-842-2545 and a link to our online RMA form will be emailed. After receiving a completed RMA form, MS SEDCO will review the information and notify customers if products may be returned. Approved RMAs will be assigned an RMA number and customers will also be instructed on which of the following options are available.

### WARRANTY RETURNS:

**Unused and Unopened Products** may be returned for full credit within 30 days of the invoice date. A 15% restocking fee will be charged for products returned between 31-60 days from the invoice date. No credits will be issued beyond 60 days from the invoice date.

**Unused and Opened Products** will be charged a 20% restocking fee if returned within 30 days of the invoice date and it is determined products can be resold as new. If it is determined the products cannot be resold as new, they will be returned or scrapped at the customer's discretion. No credits will be issued beyond 30 days from invoice date.

**Used Products** cannot be returned for credit.

**Custom Products** (including special finishes) cannot be returned for credit.

If products are being returned for credit due to an error on MS SEDCO's part, a call tag will be issued and MS SEDCO will pay freight costs. Customers will pay all freight costs on returns for any other reason.

MS SEDCO will only issue credit for returned products - no refunds.

**WARRANTY REPAIRS:** All product warranties begin on the MS SEDCO invoice date.

**Used Products Under Warranty** may be returned at no cost. Returned products will first be inspected to confirm any malfunction or damage meets warranty criteria. Warranties are void if products are found to have been altered by anyone other than MS SEDCO. Products will be repaired to proper working order and returned in "cosmetically the same" condition or replaced with re-manufactured products. MS SEDCO will only pay return ground freight cost. If product inspection reveals that any malfunction or damage is not covered under warranty, MS SEDCO will notify customer and provide a cost to complete repairs. Customers must provide a purchase order prior to repairs commencing.

### WARRANTY ADVANCED EXCHANGE PROGRAM:

MS SEDCO advanced exchange program allows you to receive replacement products prior to returning a non-functioning one under the following conditions:

1. Non-functioning product must be under the original factory warranty. Out of warranty products do not qualify.
2. Non-functioning product must be returned within 30 days of the advanced exchange invoice date. If not, payment for the advanced exchange invoice is due.
3. Upon inspection, customer will be notified if the cause of malfunction meets the warranty criteria. If not, payment for the advanced replacement invoice is required.

### OUT-OF-WARRANTY REPAIRS:

**Used Products Out-Of-Warranty** may be returned for repair for a fee if they are not **5 years beyond the original warranty period**. Returned products will first be inspected to confirm any malfunction or damage meets repair criteria. Customers will be notified of the cost to repair the products and upon receipt of a purchase order, products will be repaired to proper working order and returned to "cosmetically same" condition or replaced with re-manufactured products. Customers are responsible for all freight costs. Repaired products come with a 90 day warranty.
