2 x 6 (8) Bit Burst Keypad

cat. 39201314

The EVERSWITCH 2x6 door unit provides a single solution for users operating in harsh environment high traffic areas or need weatherized door units.

A built in interface provides an 8 bit output which is compatible with any given access control system.

Mounting: Unique design with tamper proof cover for easy and simple mounting onto any surface including metal such as door mullions.

Audiovisual indication: When a PIN code is entered to the door unit, the LED flashes and the buzzer sounds. LED and beeper can be controlled locally or by the host system.

Indoor/outdoor design: sealed in a rugged, weatherized Aluminum enclosure the EVERSWITCH is designed to withstand harsh environment, providing reliable performance and is vandal and tamper proof.

Easily interfaced: Wiegand output model interfaces with all existing Wiegand protocol access control systems.
