

**PT-1210NA**

AC 12V Plug-in Transformer

**DESCRIPTION:**

The PT-1210NA is an AC 12V transformer, Class 2, compact, plug-in style power source used for intercom and door release applications.

This power transformer is UL and CSA listed and is designed for indoor use only.

**SPECIFICATIONS:**

|                     |                                                                                                           |
|---------------------|-----------------------------------------------------------------------------------------------------------|
| Power input:        | AC 120V, 60Hz                                                                                             |
| Power output:       | AC 12V, 10VA (830mA)                                                                                      |
| Power consumption:  | 15W                                                                                                       |
| Wiring connection:  | Screw terminals                                                                                           |
| Dimensions (HxWxD): | 2- <sup>15</sup> / <sub>16</sub> " x 2- <sup>3</sup> / <sub>16</sub> " x 1- <sup>7</sup> / <sub>8</sub> " |

**PRODUCT APPLICATIONS:**

The PT-1210NA can be used for the following Aiphone Communication systems:

- CCS-1A
- IE-1AD
- IE-1GD
- IE-2AD
- IE-8MD
- LEM-1DL
- EL-12S door strike
