

Locksets

5300 Series

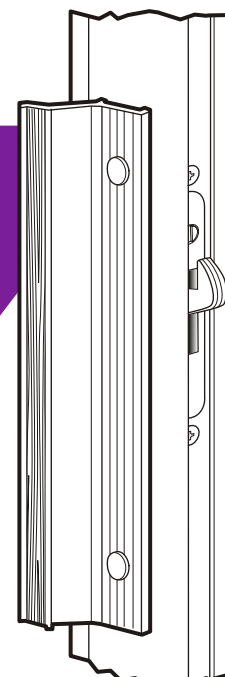

ANSI/BHMA Type E8291 (Grade 1)
(with cylinder)

Interior Pull,
for all 5300
Series Locksets

Exterior 5302

Exterior 5303

▼ Function

5300 Series Locksets offer a choice of two different exterior pulls, a genuine walnut interior grip-pull and the security of the MS1847 deadlock.

▼ Anti-Lift Lock Mechanism

Basic MS1848-09 (radius ends) or MS1848-10 (square ends) is supplied. Stainless steel bolt is self-protecting, adjustable for reach.

▼ Inside Operation

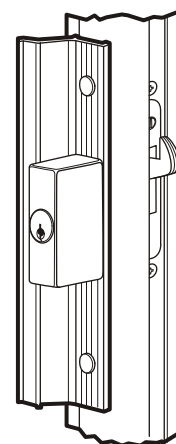

Thumbturn projects or retracts deadlock bolt.

▼ Trim Finish

All pulls are extruded aluminum with 628 (US28) Clear Anodized finish. For other finishes, contact factory.

▼ Cylinder Kit 5325

Any 5300 Series Lockset can be equipped with a cylinder block on the exterior pull. 5325 kits are available from stock with Schlage or Weiser Keyway cylinders. Installation of other makes may require modification to the cylinder, pull and/or cylinder block. Consult Adams Rite factory representative for assistance.
