

CO-200

Standalone electronic lock

Images shown are not to scale.

Overview

The CO Series is the ideal solution for customers seeking the added security and convenience of electronic access control without the cost or complexity of a fully networked system.

The CO-200 is computer or manually programmable with users rights stored on the lock. The Schlage Utility Software (SUS) on the Handheld Device (HHD) or compatible Android devices (coming soon) is used in conjunction with your access control software and allows you to easily add or delete users and retrieve audits.

By issuing electronic credentials you can minimize the number of mechanical keys issued which protects the integrity of your key system. A variety of credential readers are also available including keypad only, magnetic stripe, and proximity. The magnetic stripe and proximity readers are also available with keypad for the added security of dual authentication.

Cylindrical, mortise, mortise deadbolt, and exit trim chassis options are available as well as a wide variety of finishes and levers to suite with your existing hardware.

Mechanical key override is standard and compatible with multiple cylinder types. The CO Series is also compatible with many popular brands and types of exit devices.

The CO Series has been tested the highest standards in the industry to ensure quality and reliability you have come to expect from Schlage. The CO Series is ANSI/BHMA A156.25, ANSI/BHMA Grade 1 certified and UL 294 Listed.

Features and benefits

- Computer programmable with audit trail
- Up to 2000 users and up to 2000 audits¹
- Up to 32 holidays and 16 time zones¹
- ANSI/BHMA A156.25, ANSI/BHMA Grade 1 certified, UL 294 listed, FL12400², FL1591², FL13013² and FL14482B²
- User rights stored on the lock
- The ability to add and delete users at the lock
- Available in cylindrical, mortise, mortise deadbolt, and exit trim
- Compatible with major brands of key systems and exit devices
- Classroom/storeroom, office, and privacy functions available
- Programmable option for lighted occupancy indication³
- LED indicator visually communicates lock status

¹ Depending on access control software.

² Applies to cylindrical and mortise chassis only

³ Available on privacy function locks manufactured after February 2019 with firmware version CO.A.30 or higher.

Schlage Utility Software

The Schlage Utility Software (SUS) on the Handheld Device (HHD), or compatible Android mobile devices (coming soon) provides an easy way to manage people, audits and locks for simple access control management.

Schlage Utility Software

- Initialize lock and accessories
- Field configure devices
 - Credential reader formats
 - Lock function
 - Unlock period
 - Failure mode
 - Audible alarm on/off
- Service and diagnostics
 - Battery status
 - Validate hardware and software revision
 - Troubleshooting status signals
- New device template simplifies configuration

For replacement HHD devices with a serial cable connection, please contact Technical Support at 877.671.7011.

¹ Depending on access control software.

² Classroom/storeroom and office function not available with mortise deadbolt option. To ensure safety, all functions always allow for free egress.

³ Door position switch is required for cylindrical and mortise chassis with privacy function.
