

Folger Adam®

Works with all major mortise locks

**This industrial grade electric strike
is used with cylindrical locks, mortise locks*
and mortise exit devices**

Applications

fire rated

UL 1034
burglary listed

grade 1

742-75

For hollow-metal frame applications - when the lockset has a 1/2" 5/8", or 3/4" throw latchbolt. With multiple brackets and filler blocks included standard in every box, this is the one strike to choose when you don't know which lockset you may encounter.

**Note: 742-75 is designed to work with a variety of mortise locks without deadbolts, including the Schlage L9000 and Yale 8800 without relocating the strike prep in the frame. Consult HES customer support regarding use with Best 40 Series.*
