

# LEED™ Credit Guideline

[Link to USGBC LEED Website](#)

We are a member of the US Green Building Council

## Product Line

Examples: Type of LEED Credit

### Aluminum Products

Roof & Smoke Hatches  
Door Louvers & Pulls  
Fire Extinguisher, Valve & AED Cabinets  
Corner Guard Systems

#### Materials & Resources:

MR 3.0 Resource Reuse  
MR 4.1, 4.2- Recycled Content  
MR 5.1 - Regional Materials

#### Indoor Environmental Quality:

EQ 4.2 - Low Emitting Materials

### Stainless Steel Products

Door Lites & Louvers  
Fire Extinguisher, Valve & AED Cabinets  
Hinge Edge Guards  
Door Pulls & Kickplates  
Access Panels  
Corner Guards

#### Materials & Resources:

MR 4.1, 4.2 - Recycled Content  
MR 5.1 - Regional Materials

#### Indoor Environmental Quality:

EQ 4.2 - Low Emitting Materials

### Painted Steel Products

Roof & Smoke Hatches  
Access Panels  
Door Lites & Louvers  
Fire Extinguisher, Valve & AED Cabinets  
Door Edges & Astragals

#### Materials & Resources:

MR 4.1, 4.2 - Recycled Content  
MR 5.1 - Regional Materials

#### Indoor Environmental Quality:

EQ 4.2 - Low Emitting Materials  
EQ 8.1 - Daylight & Views

### Entrance Floor Gratings & Mats

Recessed & Surface-mount Gratings & Mats

#### Materials & Resources:

MR 4.1, 4.2 - Recycled Content  
MR 5.1 - Regional Materials

#### Indoor Environmental Quality:

EQ 5 - Indoor Chemical & Pollutant Source Control

### Fire Extinguishers

#### Materials & Resources:

MR 4.1, 4.2 - Recycled Content

### Fire & Safety-Rated Glass

PRYAN® Platinum F Glass by SaftiFirst

#### Innovation in Design:

ID - Innovation in Design

## More Information on Products that Contribute to Credits Under LEED

### Aluminum Sheet & Extrusions; Recycled Content (Except Floor Gratings)

**MR Credits 4.1, 4.2 – Recycled Content :** Our aluminum products contain a minimum of 60% post-consumer, 25% pre-consumer recycled content. Note that most aluminum has an actual post-consumer recycled content that is much higher, but at this time it is not possible to guarantee post-consumer recycled content for a specific batch or project.

### Cold Rolled Steel; Recycled Content

**MR Credits 4.1, 4.2 – Recycled Content :** Our cold rolled steel products contain a minimum of 23.5% post-consumer, 6.5% pre-consumer recycled content. Note that most cold-rolled steel has an actual post-consumer recycled content that is much higher, but at this time it is not possible to guarantee post-consumer recycled content for a specific batch or project.

### Stainless Steel; Sheet Recycled Content

**MR Credits 4.1, 4.2 – Recycled Content:** Our Stainless Steel products contain a minimum of 44% post-consumer, 16% pre-consumer recycled content. Note that most stainless steel has an actual post-consumer recycled content that is much higher, but at this time it is not possible to guarantee post-consumer recycled content for a specific batch or project.

### Metal Product Finishes; Stainless Steel, Aluminum & Painted CRS

**EQ Credits 4.2 - Low-Emitting Materials:** Reduce the quantity of indoor air contaminants. Many of our products are finished with a powder coating paint system. Powder coat paints contain no VOC's (Volatile Organic Compounds) and are totally metal, lead, chromate and solvent free. VOC-free powder coating does not generate hazardous waste as the powder is not mixed with solvents or other additives and this creates an obvious environmental advantage for both suppliers and users alike. Activar products of aluminum or stainless steel also qualify as low-emitting materials.

### Fire Extinguishers; Recycled Content

**MR Credits 4.1, 4.2 – Recycled Content:** The steel in our fire extinguishers contain a minimum of 6.8% pre-consumer recycled content. Note that some steel fire extinguishers may have an actual recycled content that is higher, but at this time it is not possible to guarantee the recycled content for a specific batch or project.

### Entrance Floor Gratings & Mats

**MR Credits 4.1, 4.2 – Recycled Content:** Aluminum gratings contain between 44-52% pre-consumer recycled content. Stainless steel gratings contain a minimum of 25% post consumer content.

**EQ Credits 5 - Indoor Chemical & Pollutant Source Control:** Floor gratings and mats that are intended for permanent installation, contribute to minimizing and controlling pollutant entry and reduce contamination between occupied areas. Minimum installation sizes are required for this credit.

### Corner Guards - Vinyl :

**MR Credits - Resource Reuse:** Models with Aluminum retainers may be re-used by re-covering with a new cover.

**MR Credits 4.1, 4.2 - Recycled Content:** Models CGV, SGV, SGVA & SGVAF contain a minimum of 35% pre-consumer recycled content.

### Regional Materials

**MR Credits 5.1 - Regional Materials:** Products installed within 500 miles of the manufacturing facility can utilize this credit. We cannot always guarantee exactly where our products are manufactured, but they are normally manufactured at one of these Activar Construction Product Group locations; **Bloomington, MN; Commerce, CA; Fort Myers, FL.** Please notify us at the time of order if information for the manufacturing location is desired. Note re: MR 5.2: The point of extraction is not available for any of the raw materials used in our products.

### Vision Lites in Doors

**EQ Credits 8.1 - Daylight & Views: Daylight 75% of Spaces:** Provide for the building occupants, a connection between indoor spaces and the outdoors through the introduction of daylight and views into the regularly occupied areas of the building.

### PRYAN® Platinum F Glass by SaftiFirst

**ID Credit - Innovation in Design:** Cradle-to-Cradle (C2C) Products Certified by MBDC (McDonough Braungart Design Chemistry) automatically qualify for this credit. Products that meet this criteria achieve exceptional performance above the requirements and/or innovative performance in green building categories not specifically addressed by the LEED Green Building Rating System. Also an EPP product.
