Units will be repaired to proper working order and returned in "cosmetically same" condition. All units exceeding 5 years over warranty period will be scrapped on site, or returned to customer (at customers freight cost) unrepaired.

ADVANCE EXCHANGE PROGRAM:

MS SEDCO Repair Center advance exchange program allows you to receive refurbished units quickly. Shipping and handling charges are extra. Please send your malfunctioning unit to us within 10 days to avoid up-charges. Up-charges also apply if the unit MS SEDCO receives is not repairable due to excessive damage or an incorrect model. Up-charges are generally assessed as the difference between the repair price and the new product price. All warranties on exchanges are subject to the same standard terms and conditions as a repaired unit. Advanced exchange units must be returned with all accessories (brackets, transformers, harnesses, manuals) or will be charged per non-returned accessories.

ADVANCE EXCHANGE RETURN POLICY:

MS SEDCO Repair Center accepts returns on advance exchange units. All advanced exchange units must be returned within 10 days of the original exchange order. Items may be assessed a 15% restocking fee and all applicable shipping and COD charges will apply. Advanced exchanged units must be returned in original packaging. Damaged units will not be accepted for exchange credit. Please contact customer service to receive authorization for the return before shipping it to MS SEDCO. MS SEDCO will only issue credits for returned units not refunds.
