December 2014

## Access Hardware Supply is Proud to Offer the CO Series Locks from Schlage®

**San Leandro, CA** – The Schlage CO Series provides the perfect electronic access control solution for those looking for security, efficiency and convenience. Tested to the highest standards in the industry, the CO Series leads the industry in independent third party testing and certification including ANSI/BHMA Grade 1, ANSI/BHMA A156.25, and UL 294.

Among other features and benefits, mechanical key override is standard and compatible with multiple cylinder types and the series is also compatible with many major brands of key systems and exit devices. User rights are stored on the lock and depending on the model, one can either assign unique PIN codes to each user or issue electronic credentials. This helps to protect the integrity of the key system by minimizing the number of mechanical keys issued.

The CO Series offers many choices in chassis options, as well as a variety of finishes and levers to coordinate with one's existing hardware.

Several models of the CO Series locks are available to meet the specific needs of customers. Access Hardware now offers Schlage CO-100 and CO-200 standalone electronic locks, as well as CO-220 locks, a standalone classroom lockdown solution with remote fob and visual indicator.

Key features of each model include:

### The CO-100 standalone electronic lock

- Manually programmable
- Up to 500 unique 3-6 digit PIN codes stored on lock

- Cylindrical, mortise and exit trim chassis options
- Classroom/storeroom function and office function available

**The CO-200 standalone electronic lock**

- Computer programmable and audit trail
- Up to 2,000 users and up to 2,000 audits\*
- Up to 32 holidays and 16 time zones\*
- Ability to add and delete users at the lock
- Cylindrical, mortise, mortise deadbolt and exit trim chassis options
- Classroom/storeroom, office and privacy functions available

**The CO-220 standalone electronic lock**

- Manually or computer programmable with audit trail
- Includes one pre-paired remote lockdown fob (typical range of up to 75' on secured side and up to 25' on exterior side of the door)\*\*
- In lockdown/panic mode, only administrative safety official credentials will override lock
- Always free egress even in lockdown/panic mode
- Up to 2,000 users and up to 2,000 audits\*
- Up to 32 holidays and 16 time zones\*
