

Classroom doors

Education solutions

Every school has several security zones, each with a unique set of requirements and openings. Classrooms are the innermost security zone in a school.

Three distinct classroom lockdown solutions:

Centralized lockdown: Simultaneous building-wide lockdown controlled by an individual using access control software

Local remote lockdown: A standalone electronic solution activated by a fob within proximity of the door

Manual lockdown: Relies on an individual to be at the door with the right key in hand during a lockdown situation

Classroom door—remote lockdown operational requirements:

- Doors can be locked or unlocked during the day per school requirement, but should always be closed
- Doors are secured after hours
- Access when door is locked is gained by a valid credential or key
- Free egress is available at all times
- Lockdown achieved without exiting classroom

Standard features

In most applications and most institutional settings a basic classroom door—remote lockdown package includes these standard features:

- 1 Ives hinges
- 2 Schlage CO-220 classroom lock with remote fob and indicator
- 3 Ives door silencer
- 4 LCN door closer
- 5 Ives door stop

Innovative solutions for secure classroom lockdown

Allegion offers you an array of products designed exclusively to provide swift and seamless lockdown of a classroom in an emergency situation.

Centralized lockdown

- Schlage® AD-400 wireless networked locks utilize patent-pending Wake-Up On Radio™ technology to enable lockdown in seconds.
- Schlage® AD-300 hardwired networked locks also enable centralized lockdown, and offer many features that can be monitored by access control software.
- The AD-Series was designed on an open architecture platform so that it can easily be integrated into virtually any access control system via Wiegand, Clock & Data or RS-485.

Remote local lockdown

- The Schlage® CO-220 standalone classroom security lock with remote fob allows for immediate local lockdown.
- Lockdown can be initiated for up to 10 doors in range by pressing the button on the fob, which can be worn around the neck or wrist.
- When activated, the visual indicator on the interior of the lock illuminates providing verification that the door is secured.

Manual lockdown

- The Schlage® L-Series mortise lock with 180° visual indicator allows one to view the door lock status from across the room.
- Standard on the Schlage® ND-Series classroom security lock, the ND Indicator rose provides at-a-glance instructions for securing the door from inside the room.

Note: These security solutions are designed only as a guide and do not take into consideration local codes and regulations that may be in place. Please contact your local Allegion representative to design a specification to meet your unique needs.
